

Narrative Essay

A narrative essay tells a story or narrates an event. In the story, we relate in detail something that has happened. When a story is sharply detailed, the reader will be able to picture the event and see and understand the experience from the narrator's perspective.

Please choose a topic below and write a narrative essay rich in details

- First **brainstorm** a list of details that describe the story or event
- Then **organize** your details (usually in time order of how they happened)
- Begin to **write** the essay and include a strong topic sentence that speaks to the topic of the essay
- **Develop** an introductory paragraph, body paragraph(s), and a concluding paragraph
- **Reread** and revise your essay
- **Proofread** and evaluate your essay using the self-evaluation check-lists

Topic Choices:

Choose a vivid time from your childhood. You might think of the first time that you rode a school bus, the first A you received on a test paper, earning money to buy something that you really wanted, or another vivid memory. Narrate the events related to the childhood memory that you have chosen so that your readers will understand why the event was important and memorable.

Friends are important to everyone. Think of the friends you have and the days you have spent with them. Now, choose one day with a friend that you would be interested in telling about. Write the story of what happened on that day with your friend. Imagine you will be sharing your writing with someone who has never met your friend.

Write about your family. Share an experience, a memory, a tradition, family wisdom, a celebration. Explain the significance to you of this event or experience.

Write about an experience that changed your view of someone. Narrate the experience in detail and give special significance to how it changed your opinion about the person.

Write an essay in which you recreate for the reader an unusual experience you have had, or you know someone else has experienced.

Hochman,Natalie Wexler,2017-08-07 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution TWR provides a clear method of instruction that you can use no matter what subject or grade level you teach The model also known as The Hochman Method has demonstrated over and over that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback

Insurmountable as the challenges faced by many students may seem The Writing Revolution can make a dramatic difference And the method does more than improve writing skills It also helps Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing There s no separate writing block and no separate writing curriculum Instead teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction But perhaps what s most revolutionary about the TWR method is that it takes the mystery out of learning to write well It breaks the writing process down into manageable chunks and then has students practice the chunks they need repeatedly while also learning content

Writing the Classroom
 Stephen E. Neaderhiser,2022-11-21 Writing the Classroom explores how faculty compose and use pedagogical documents to establish classroom expectations and teaching practices as well as to articulate the professional identities they perform both inside and outside the classroom The contributors to this unique collection employ a wide range of methodological frameworks to demonstrate how pedagogical genres even ones as seemingly straightforward as the class syllabus have lives extending well beyond the classroom as they become part of how college teachers represent their own academic identities advocate for pedagogical values and negotiate the many external forces that influence the act of teaching Writing the Classroom shines a light on genres that are often treated as two dimensional with purely functional purposes arguing instead that genres like assignment prompts course proposals teaching statements and policy documents play a fundamental role in constructing the classroom and the broader pedagogical enterprise within academia Writing the Classroom calls on experienced teachers and faculty administrators to critically consider their own engagement with pedagogical genres and offers graduate students and newer faculty insight into the genres that they may only now be
