systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on Perils and Promises The State of Online Education Goals and Challenges of Online Learning and Innovations in the Age of COVID It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic *Accessing Post-School Studies* Venica McGhie, 2017-12-01 This publication makes a valuable contribution to often problematic and pertinent South African higher education issues such as student access and success student learning student support and student engagement In this regard the authors draw on the works of higher education theorists such as Kuh Tinto Marton and Saeljoe The book is primarily a helpful resource for South African learners in school students at universities life orientation teachers as well as parents of prospective university students It will especially assist students to adapt to the university environment **Knowledge Beyond Colour Lines** Monwabisi K. Ralarala, Salochana Lorraine Hassan, Rajani Naidoo, 2021-05-25 Knowledge remains timely in education The need for academics to contemplate its relevance worth use and everything in between deems a continuous intellectual project rather than a conundrum to be solved This book takes the South African context by the horns as it challenges the often dormant and traditionalist ways in which higher education spaces see knowledge Through original research and the voices of academics and students this book argues for repurposing knowledge generation knowledge sharing and critical pedagogy so that more inclusive teaching and learning environments can be both imagined and sustained The contentious tensionalities that this creates for LoLT and SoTL in particular are unlocked so as to trouble the South African higher education landscape with the intent to proffer alternative pathways for a knowledge beyond colour lines Prof Shan Simmonds PhD NWU This edited volume bristles with fresh scholarly approaches and insights of an emergent generation of engaged scholars grappling with the issues and problems of higher education in South Africa The issues dealt with here are varied and encompassing They are treated with intellectual delicacy and probing sensitivity articulacy informed data and bold conclusions They serve well Prof Kwesi Kwaa Prah Emeritus Professor of Sociology University of the Western Cape Founder of the Centre for Advanced Studies of African Society The Responsive

Booyesen,2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa More broadly it radically questioned the socio political dispensation resulting from the 1994 social pact between big business the ruling elite and the liberation movement The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left Yet its objectives are more complex than those of earlier struggles The student movement has challenged the hierarchical top down leadership system of university management and it s double speak of professing to act

in workers and students interests yet entrenching a regressive system for control and governance University managements while on one level amenable to change have also co opted students into their ranks to create co responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution This book maps the contours of student discontent a year after the start of the FeesMustFall revolt Student voices dissect colonialism improper compromises by the founders of democratic South Africa feminism worker rights and meaningful education In depth assessments by prominent scholars reflect on the complexities of student activism its impact on national and university governance and offer provocative analyses of the power of the revolt
