Essays To Appear On Business Question Paper November 2014:

Essays in Economic and Business History, 2018 **Masculinity in Breaking Bad** Bridget Roussell

Cowlshaw, 2015-03-25 Following on author Peter Rollins motto If it isn't popular it isn't culture this collection of new essays considers Vince Gilligan's award winning television series Breaking Bad as a landmark of Western culture comparable to the works of Shakespeare and Dickens in their time that merits scholarly attention from those who would understand early the 21st century zeitgeist The essayists explore the series as a critique of American concepts of masculinity with Walter White discussed as a father archetype provider protector author of a legacy and as a Machiavellian warrior on the capitalist battleground Other topics include the mutual exclusivity of intellect and masculinity in American culture and the dramatic irony as White's rationales for his criminal life are gradually revealed as a lie In round table chapters contributors discuss the show's reception fans who root for Team Walt Skyler hating and Breaking Bad as a feminist text *The Price of Time*

Edward Chancellor, 2022-08-16 Winner of the 2023 Hayek Book Prize Longlisted for the 2022 Financial Times Business Book of the Year Award A comprehensive and profoundly relevant history of interest from one of the world's leading financial writers The Price of Time explains our current global financial position and how we got here In the beginning was the loan and the loan carried interest For at least five millennia people have been borrowing and lending at interest The practice wasn't always popular in the ancient world usury was generally viewed as exploitative a potential path to debt bondage and slavery Yet as capitalism became established from the late Middle Ages onwards denunciations of interest were tempered because interest was a necessary reward for lenders to part with their capital And interest performs many other vital functions it encourages people to save enables them to place a value on precious assets such as houses and all manner of financial securities and allows us to price risk All economic and financial activities take place across time Interest is often described as the price of money but it is better called the price of time time is scarce time has value interest is the time value of money Over the first two decades of the twenty first century interest rates have sunk lower than ever before Easy money after the global financial crisis in 2007 2008 has produced several ill effects including the appearance of multiple asset price bubbles a reduction in productivity growth discouraging savings and exacerbating inequality and forcing yield starved investors to take on excessive risk The financial world now finds itself caught between a rock and a hard place and Edward Chancellor is here to tell us why In this enriching volume Chancellor explores the history of interest and its essential function in determining how capital is allocated and priced **The Value of Everything** Mariana Mazzucato, 2018-09-11 A

stimulating analysis of the underlying causes of inequality and growth which forces us to confront long held beliefs about how economies work and who benefits Martin Wolf Financial Times A scathing indictment of our current global financial system The Value of Everything rigorously scrutinizes the way in which economic value has been accounted and reveals how economic theory has failed to clearly delineate the difference between value creation and value extraction Mariana

Mazzucato argues that the increasingly blurry distinction between the two categories has allowed certain actors in the economy to portray themselves as value creators while in reality they are just moving around existing value or even worse destroying it. The book uses case studies from Silicon Valley to the financial sector to big pharma to show how the foggy notions of value create confusion between rents and profits reward extractors and creators and distort the measurements of growth and GDP. In the process innovation suffers and inequality rises. The lesson here is urgent and sobering to rescue our economy from the next inevitable crisis and to foster long term economic growth we will need to rethink capitalism rethink the role of public policy and the importance of the public sector and redefine how we measure value in our society.

Class, Politics, and Agrarian Policies in Post-liberalisation India Sejuti Das Gupta, 2019-05-09. The book visits the idea of New India studying how the political economy of India has changed significantly in post liberalisation India. The book challenges the notion that all farmers in India are in agrarian distress showing that some classes of farmers have gained under policies it helps understand why farmer movement has weakened and control of industrial capitalist class has been bolstered. The book discusses the growing presence of petty bourgeoisie with both old and new fractions thriving. Gujarat and Karnataka are instances of these two kinds of fractions. Refuting to pre suppose a uniformity across countries this book upholds the significance of studying these dynamics within a nation state.

Direct Jurisdiction Anselmo Reyes, Wilson Lui, 2021-08-26. The second thematic volume in the series *Studies in Private International Law Asia* looks into direct jurisdiction that is the situations in which the courts of 15 key Asian states Mainland China Hong Kong Taiwan Japan South Korea Malaysia Singapore Thailand Vietnam Cambodia Myanmar the Philippines Indonesia Sri Lanka and India are prepared to hear a case involving cross border elements. For instance where parties are habitually resident abroad and a dispute has only some little or no connection with an Asian state will the courts of that state accept jurisdiction and hear the case and if so on what conditions. More specifically the book's chapters explore the circumstances in which different Asian states assume or decline jurisdiction not just in commercial matters but also in other types of action such as family consumer and employment disputes. The Introduction defines terminology and identifies similarities in the approaches to direct jurisdiction taken by the 15 Asian states in civil and commercial litigation. Taking its

cue from this the Conclusion assesses whether there should be a multilateral convention or soft law instrument articulating principles of direct jurisdiction for Asia The Conclusion also discusses possible trajectories that Asian states may be taking in respect of direct jurisdiction in light of the COVID 19 pandemic and the political tensions currently besetting the world The book suggests that enacting suitable rules of direct jurisdiction requires an Asian state to strike a delicate balance between affording certainty and protecting its nationals At heart direct jurisdiction involves sometimes difficult policy considerations and is not just about drawing up lists of jurisdictional grounds and exceptions to them

Global Technology and Legal Theory Guilherme Cintra Guimarães, 2019-06-05 The rise and spread of the Internet has accelerated the global flows of money technology and information that are increasingly perceived as a challenge to the traditional regulatory powers of nation states and the effectiveness of their constitutions The acceleration of these flows poses new legal and political problems to their regulation and control as shown by recent conflicts between Google and the European Union EU This book investigates the transnational constitutional dimension of recent conflicts between Google and the EU in the areas of competition taxation and human rights More than a simple case study it explores how the new conflicts originating from the worldwide expansion of the Internet economy are being dealt with by the institutional mechanisms available at the European level The analysis of these conflicts exposes the tensions and contradictions between on the one hand legal and political systems that are limited by territory and on the other hand the inherently global functioning of the Internet The EU's promising initiatives to extend the protection of privacy in cyberspace set the stage for a broader dialogue on constitutional problems related to the enforcement of fundamental rights and the legitimate exercise of power that are common to different legal orders of world society Nevertheless the different ways of dealing with the competition and fiscal aspects of the conflicts with Google also indicate the same limits that are generally attributed to the very project of European integration showing that the constitutionalization of the economy tends to outpace the constitutionalization of politics Providing a detailed account of the unfolding of these conflicts and their wider consequences to the future of the Internet this book will appeal to scholars working in EU law international law and constitutional law as well as those in the fields of political science and sociology

The War on Sex David M. Halperin, Trevor Hoppe, 2017-03-09 The past fifty years are conventionally understood to have witnessed an uninterrupted expansion of sexual rights and liberties in the United States This state of the art collection tells a different story while progress has been made in marriage equality reproductive rights access to birth control and other areas government and civil society are waging a war on stigmatized sex by means of law surveillance and social control The contributors document the history and operation of sex offender registries and the criminalization of HIV as well as highly punitive measures against sex work that do more to harm women than to combat human trafficking They reveal that sex crimes are punished more harshly than other crimes while new legal and administrative regulations drastically restrict who is permitted to have sex By examining how the ever intensifying war on sex affects both privileged

and marginalized communities the essays collected here show why sexual liberation is indispensable to social justice and human rights Contributors Alexis Agathocleous Elizabeth Bernstein J Wallace Borchert Mary Anne Case Owen Daniel McCarter Scott De Orio David M Halperin Amber Hollibaugh Trevor Hoppe Hans Tao Ming Huang Regina Kunzel Roger N Lancaster Judith Levine Laura Mansnerus Erica R Meiners R Noll Melissa Petro Carol Queen Penelope Saunders Sean Strub Maurice Tomlinson Gregory Tomso **Universalising Healthcare in India** Imrana Qadeer, K.
