Essentials of Aerial Surveying and Photo Interpretation Talbert Abrams, 2013-11-26 This book combines the knowledge and experience of the members of the instructional staff of the Abrams School of Aerial Surveying and Photo Interpretation. Aerial mapping and reconnaissance had become vital by the middle of the second world war this is an instructional guide compiling all of the knowledge on the subject gathered up to the point. Phenomena Gisela Parak, 2015-08-15 Since well before the debates about global warming and climate change images have played an important part in bringing changes in nature and the environment to the attention of the general public. Moreover most of these images have historic precursors. Gisela Parak illuminates how the synergy of photography and science gave rise to a class of photographs of environmental phenomena in the history of the United States of America and how these images supported and instructed the scientific pursuit of knowledge and were furthermore used as a persuasive means for directing public opinion. **The Development Century** Stephen J. Macekura, Erez Manela, 2018-09-06 This anthology offers a cutting edge perspective on how development has shaped the history of the modern world. Stephen J. Macekura and Erez Manela have gathered together leading historians to examine development on the international, regional and national levels as well as local manifestations of development initiatives and transnational organizing on behalf of alternative approaches. Themes include the relationship between empire and development, the role of international institutions, the influence of the Cold War, decolonization and post colonial development strategies, reform and resistance to development, development and global health and the ecological effects of development. The Development Century examines how ideas and discourses about development have shaped its practices on the ground, explores the ways in which policymakers and experts attempted to implement development through specific institutions and policies and analyzes development initiatives and their effect of local environments and people.
