[Re]Gained in Translation, Volume 1-2 Sabine Dievenkorn, Shaul Levin, 2024-02-26 Volume 1 Translations of the Bible take place in the midst of tension between politics ideology and power With the theological authority of the book as God's Word not focusing on the process of translating is stating the obvious Inclinations fluency and zeitgeist play as serious a role as translators' person faith and worldview as do their vocabulary poetics and linguistic capacity History has seen countless retranslations of the Bible What are the considerations according to which Biblical retranslations are being produced in current 21st century contexts From retranslations of the Hebrew Bible to those of the Old and New Testaments to mutual influences of Christian and Jewish translational traditions the papers collected here all deal with the question of what is to be re gained with the production of a new translation where at times many a previous one has already existed Volume 2 Times are changing and with them the norms and notions of correctness Despite a wide spread belief that the Bible as a sacred original only allows one translation if any new translations are constantly produced and published for all kinds of audiences and purposes The various paradigms marked by the theological political and historical correctness of the time group and identity and bound to certain ethics and axiomatic norms are reflected in almost every current translation project Like its predecessor the current volume brings together scholars working at the intersection of Translation Studies Bible Studies and Theology all of which share a special point of interest concerning the status of the Scriptures as texts fundamentally based on the act of translation and its recurring character It aims to breathe new life into Bible translation studies unlock new perspectives and vistas of the field and present a bigger picture of how Bible re translation works in society today

English as a Medium of Instruction in Postcolonial Contexts Lizzi O. Milligan, Leon Tikly, 2018-10-16 Almost all low and middle income postcolonial countries now use English or another dominant language as the medium of instruction for some if not all of the basic education cycle Much of the literature about language in education in such countries has focused on the instrumentalist value of English on one side and the rights of learners to high quality mother tongue based education on the other The polarised nature of the debate has tended to leave issues related to the processes of learning in English as a Medium Instruction EMI classrooms under researched This book aims to provide a greater understanding of the existing challenges for learners and educators and

potential strategies that can support more effective teaching and learning in EMI classrooms Contributions illustrate the impact that learning in English has on learners in a range of regional national and local contexts and put forward theoretical and empirical analyses to support more relevant and inclusive educational policies This volume was originally published as a special issue of Comparative Education
