happen First Amendment expert Greg Lukianoff and social psychologist Jonathan Haidt author of *The Anxious Generation* show how the new problems on campus have their origins in three terrible ideas that have become increasingly woven into American childhood and education What doesn't kill you makes you weaker always trust your feelings and life is a battle between good people and evil people These three Great Untruths contradict basic psychological principles about well being and ancient wisdom from many cultures Embracing these untruths and the resulting culture of safetyism interferes with young people's social emotional and intellectual development It makes it harder for them to become autonomous adults who are able to navigate the bumpy road of life Lukianoff and Haidt investigate the many social trends that have intersected to promote the spread of these untruths They explore changes in childhood such as the rise of fearful parenting the decline of unsupervised child directed play and the new world of social media that has engulfed teenagers in the last decade They examine changes on campus including the corporatization of universities and the emergence of new ideas about identity and justice They situate the conflicts on campus within the context of America's rapidly rising political polarization and dysfunction This is a book for anyone who is confused by what is happening on college campuses today or has children or is concerned about the growing inability of Americans to live work and cooperate across party lines
