Grateful Patient Letter:

British Journal of Dental Science and Prosthetics ,1858 *British Journal of Dental Science* ,1859 **Letters to His Children from an Uncommon Attorney** David Roberts,2014-08-22 This memoir was inspired by the author's daughter. He would tell her stories about incidents in his life so she persuaded him to write them down. You must write all this down Dad so they can be read by your grandchildren. And you must get on with it before you die. Some stories are brief half a page others are long twelve pages. It is the sort of book to keep by the bedside and dip into one story at a time. Some stories cover events that occurred when the author was a small boy growing up in England during the war. Some cover incidents while he and his wife were travelling in China Japan France in Canada and in other odd places events that occurred in the neighbourhood in Caulfeild Cove where he and his wife have lived for fifty two years. There are pieces about Haida Gwaii and some about his experiences practising law. The stories range from the funny to the harrowing **Medical Consulting by Letter in France, 1665-1789** Robert Weston,2016-04-29 Ailing seventeenth and eighteenth century French men and women members of their families or their local physician or surgeon could write to high profile physicians and surgeons seeking expert medical advice. This study the first full length examination of the practice of consulting by letter provides a cohesive portrayal of some of the widespread ailments of French society in the latter part of the early modern period. It explores how and why changes occurred in the relationships between those who sought and those who provided medical advice. Previous studies of epistolary medical consulting have limited attention to the output of one or two practitioners but this study uses the consultations of around 100 individual practitioners from the mid seventeenth century to the time of the Revolution to give a broad picture of patients and physicians perceptions of illnesses and how they should be treated on a day to day basis. It makes a unique contribution to the history of medicine as no other study has been undertaken in the consulting by letter of surgeons as opposed to physicians. It is shown that the well known disputation between physicians and surgeons tells only a part of the history whereas in fact necessity required that these two professions had to work together for the patients good *Writing Activities for Every Month of the School Year* Carol H. Elderhood Louise Aronson, 2019-06-11 Finalist for the Pulitzer Prize in General Nonfiction A New York Times Bestseller Longlisted for the Andrew Carnegie Medal for Excellence in Nonfiction Winner of the WSU AOS Bonner Book Award Winner of the 2022 At Home With Growing Older Impact Award As revelatory as Atul Gawande's *Being Mortal* physician and award-winning author Louise Aronson's *Elderhood* is an essential empathetic look at a vital but often disparaged stage of life. For more than 5,000 years old has been defined as beginning between the ages of 60 and 70. That means most people alive today will spend more years in elderhood than in childhood and many will be elders for 40 years or more. Yet at the very moment that humans are living longer than ever before we've made old age into a disease, a condition to be dreaded, denigrated, neglected, and denied. Reminiscent of Oliver Sacks, noted Harvard-trained geriatrician Louise Aronson uses stories from her quarter-century of caring for patients and draws from history, science, literature, popular culture, and her own life to weave a vision of old age that's neither nightmare nor utopian fantasy, a vision full of joy, wonder, frustration, outrage, and hope about aging, medicine, and humanity itself. *Elderhood* is for anyone who is in the author's own words an aging, i.e., still breathing human being.

Seeing Patients Augustus A. White III, 2019-11-19 A powerful and extraordinarily important book. James P. Comer, MD, A marvelous personal journey that illuminates what it means to care for people of all races, religions, and cultures. The story of this man becomes the aspiration of all those who seek to minister not only to the body but also to the soul. Jerome Groopman, MD, author of *How Doctors Think* Growing up in Jim Crow-era Tennessee and training and teaching in overwhelmingly white medical institutions, Gus White witnessed firsthand how prejudice works in the world of medicine. While race relations have changed dramatically since then, old ways of thinking die hard. In this blend of memoir and manifesto, Dr. White draws on his experience as a resident at Stanford Medical School, a combat surgeon in Vietnam, and head orthopedic surgeon at one of Harvard's top teaching hospitals to make sense of the unconscious bias that riddles medical care and to explore how we can do better in a diverse twenty-first-century America. Gus White is many things: trailblazing physician, gifted surgeon, and freedom fighter. *Seeing Patients* demonstrates to the world what many of us already knew: that he is also a compelling storyteller. This powerful memoir weaves personal experience and scientific research to reveal how the enduring legacy of social inequality shapes America's medical field. For medical practitioners and patients alike, Dr. White offers both diagnosis and prescription. Jonathan L. Walton, Plummer Professor of Christian Morals, Harvard University, A tour de force, a compelling story about race, health, and conquering inequality in medical care. Dr. White has a uniquely perceptive lens with which to see and understand unconscious bias in health care. His

journey is so absorbing that you will not be able to put this book down Charles J Ogletree Jr author of All Deliberate Speed
