

Galaxy Dimension

Alarm & access control panel range

The new Galaxy Dimension series is the next generation of intruder alarms from the established Galaxy range. Based on the market leading Galaxy 3 series, it provides high quality, reliable security solutions for commercial and industrial applications.

New innovative user interface

The Galaxy colour TouchCenter facilitates easy user operation. An intuitive menu gives clear options, and event logs are displayed as a scroll list for easier comprehension. Installers can customise the screen background with their own and the end-user's images and logos. Enhanced controls allow simple centralised operation of electrical appliances such as lights, heating, or window blinds either manually using the touch-screen or automatically via timer control.

Integrated system (Intrusion + Access control)

Galaxy's latest version - Dimension - also now includes enhanced access control features. With one integrated system, operation is simpler for the end user and is easier for the installer to program, commission and maintain. Best for both, one system means one point of contact for technical support.

And always with Honeywell support

As well as sales literature, free training sessions are frequently organised to help system understanding and to ensure trouble free installations every time.

Programming software compatibility

The new Remote Servicing Suite uses a common database to communicate with all Galaxy panels from one program. A networked version of the Remote Servicing Suite is also available to allow access to up to date records for all users. It guarantees secure management of information in one central location.

Backwards compatibility

To allow upgrades of the existing install base, the Galaxy Dimension PCB is fully interchangeable with G3 so the new series of control panels is compatible with all previous Galaxy installations. Programmable zone configuration also allows easy replacement of competitor's panels in many cases.

Audio verification ('Listen-in' Facility)

With the new Galaxy Dimension, the Alarm Receiving Centre (ARC) can listen in using independent audio channels to identify the specific location where the alarm has been triggered and verify source and cause. This reduces false alarms and increases system reliability.

The right choice

Galaxy Dimension, allows you to offer your customer a user - friendly integrated security solution which delivers modern aesthetics in a cost-effective, fully compliant package.
