

Tata Steel Ltd

Raise estimates & PT as Europe continues to pick up, while India stabilizes; Could be PCF positive in FY15E

TATA's leverage to a European recovery goes beyond steel EBITDA/T, in our view. Reported EBITDA could improve sharply in two other scenarios, and the higher EBITDA from Europe would likely result in TATA being PCF positive in FY15E (even as we hold in expectation of ~Rs130bn and no asset sales). Stronger equity markets in Europe combined with higher interest rates should also lead to a better position relative Street dollars. We increase TATA Europe EBITDA for FY15E to ~\$700m (EBITDA/T ~\$11/T) from ~\$600m earlier. We see large upside risks to our European estimates, if a) current spreads were to narrow for the full year, and b) if long product demand recovery starts in Q1+16. We raise our PT to Rs250 (based on FY15 EBITDA).

- Even if current spreads do not narrow, there is significant upside to our TATA Europe estimates. January was a unique month, as the value that spreads widened materially in Europe as steel prices increased, even as raw material prices were falling. We do not expect this to continue, but we see upside risks to our estimates, primarily driven by demand, particularly Long steel. TATA has mothballed capacity in Long steel in UK, and continued demand revival of these capacities could drive significant upside to our Street-high estimates. Every ~100T increase in EBITDA effectively adds ~\$0.40 to our PT.
- India should remain steady, we see little risk of any disruption from Steel Commission. We do not see any disruption to TATA's iron ore operations. Our average discounts are not building in a big domestic recovery and hence we expect discount to import parity price to remain, though narrow. While there are worries about a steep iron ore price fall as HD driving global HRC steel prices below \$100/T, we would highlight that a) weaker D-OX remains supportive for local prices, and b) there is upside risk to ~~FFR/Steel demand estimates~~.
- Even with Rs130bn capex estimates, TATA could turn PCF positive. We are not building in asset sales and the group investment and Dividend Payout are embedded options, value in the balance sheet which could be monetized if required. We do not give any value to them.
- What to expect in earnings on Feb 12: We expect consolidated EBITDA of Rs247bn, 1% company coupled consensus of Rs277.9bn while our TATA Europe EBITDA/T is at ~\$11.5/T consensus at ~\$10/T.
- Remains OW: TATA remains the most levered stock in any European recovery and we believe a recovery is NOT yet priced into the stock.

How To Write Equity Research Report:

Writing Securities Research Jeremy Bolland, 2011-09-07 There is a strong need for this book by Jeremy Bolland which dissects all issues relating to securities research. The requirement for better research does not only apply to the US securities market but to securities markets all over the world. This book is relevant in any setting. It will equip analysts with many useful tools to help them achieve success. Mark Mobius, President, Templeton Emerging Markets Fund. Jeremy Bolland's book is essential reading for all people involved in writing securities research. Moreover, it is not just a technical and legal guide but also a timely reminder of the principles of good writing. Andrew Leeming, Author of *The Super Analysts*. Knowing your ratios and spreadsheets is no longer enough to become an investment analyst. As Jeremy Bolland points out, you need to know your do's and don'ts of how to approach clients and companies. This guide to doing it properly is an obvious selection for the bookshelf of anyone who aspires to offer investment advice and a fine reference for anyone who receives such advice. Jake van der Kamp, Financial Columnist, South China Morning Post. At last, here's a comprehensive yet easy-to-read guide explaining all the best practice principles involved in writing securities research. It is full of useful information. If all securities analysts followed the guidance that has been clearly laid out in this book by Jeremy Bolland, research enforcement regulators around the world would be out of a job. Anyone who is involved in writing and publishing research or using research for investment decisions from the novice to the expert should read this book. I highly recommend it. Anthony Espina, Chairman, Hong Kong Stockbrokers Association.

How to Write Psychology Research Reports & Essays Bruce Findlay, 2014-09-01 *How to Write Psychology Research Reports and Essays 7e* is endorsed by the Australian Psychological Society and is a useful reference to the strict guidelines required by the APS and the APA (American Psychological Association) styles. A student who grasps these concepts and learns the conventions will have a sound basis for presenting research in a professional manner and writing well-argued essays so that the later step of writing for publication should be an easier one to take.
