

## 2 and 3-Furrow Plows

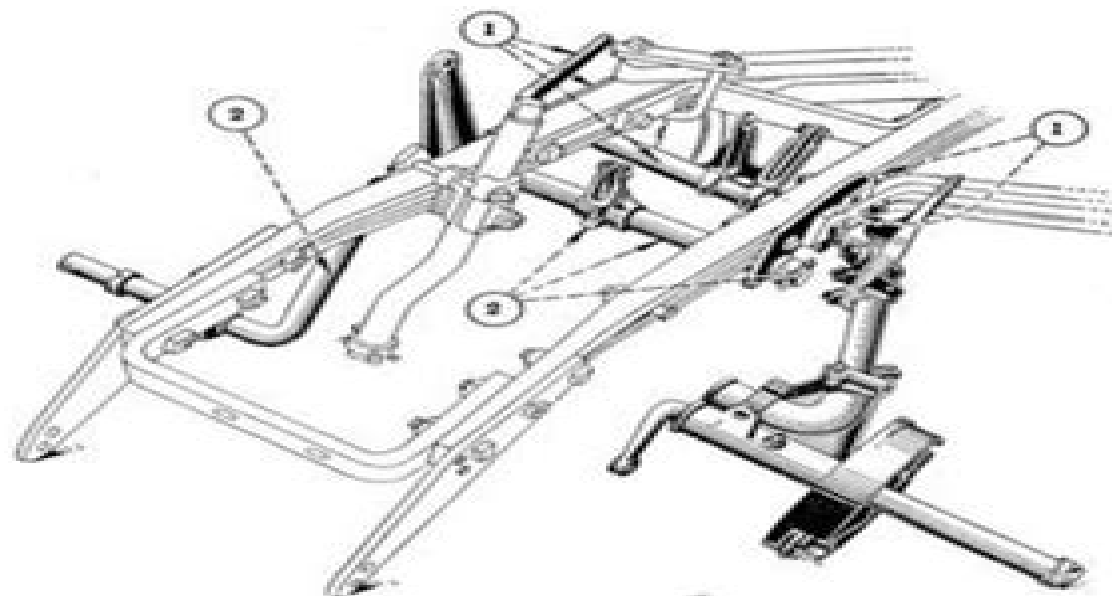

Illustration No. 3—2 and 3-furrow.

1. Remove bolts from second and third beams (on three-furrow plow) and discard spacing block. Remove bolts from axle brackets and bolt brackets with land axle to outside of beams, placing beam washers in channel of beams. (Place land axle bracket between second beam and end of third beam on three-furrow plow.)

2. Remove cotter, linch pin collar and spring anchor from furrow axle, place end of furrow axle through right hand axle plate, put on spring anchor and push axle on through axle bracket on second beam. Replace collar and cotter in end of axle.

*Note: The above illustration is for a 3-furrow plow. The 2-furrow plow is assembled in the same manner, the only difference being in the lifting arm on the land axle. (See page 9, paragraph 3.)*
