5.2. **THEOREM 5.2.** *Let \mathcal{A} be a \mathcal{C}^* -ternary algebra. Then the following conditions are equivalent:*

By its generally well-stated terms, the proposed standard should not be construed as requiring a person charged with the duty of child support to provide the full fair market value of the child's support. The proposed standard is simply that the person charged with the duty of child support should provide the child with the minimum support that is necessary for the child to maintain the same standard of living as the child would have had if the parents had remained married.
