out as one of the most outspoken driven and daring leaders of the software industry The company he cofounded and runs Oracle is the number one business software company perhaps even more than Microsoft s Oracle s products are essential to today s networked world But Oracle is as controversial as it is influential as feared as it is revered thanks in large part to Larry Ellison Though Oracle is one of the world s most valuable and profitable companies Ellison is not afraid to suddenly change course and reinvent Oracle in the pursuit of new and ever more ambitious goals Softwar examines the results of these shifts in strategy and the forces that drive Ellison relentlessly In Softwar journalist Matthew Symonds gives readers an exclusive and intimate insight into both Oracle and the man who made it and runs it As well as relating the story of Oracle s often bumpy path to industry dominance Symonds deals with the private side of Ellison s life From Ellison s troubled upbringing by adoptive parents and his lifelong search for emotional security to the challenges and opportunities that have come with unimaginable wealth Softwar gets inside the skin of a fascinating and complicated human being With unlimited insider access granted by Ellison himself Symonds captures the intensity and some would say the recklessness that have made Ellison a legend The result of more than a hundred hours of interviews and many months spent with Ellison Softwar is the most complete portrait undertaken of the man and his empire a unique and gripping account of both the way the computing industry really works and an extraordinary life Despite his closeness to Ellison Matthew Symonds is a candid and at times highly critical observer And in perhaps the book s most unusual feature Ellison responds to Symonds s portrayal in the form of a running footnoted commentary The result is one of the most fascinating business stories of all time [Florida Crime Writers](#) Steve Glassman,2014-12-24 This book examines 24 crime novelists who set their work in the Sunshine State From James W Hall s Under Cover of Daylight in the Florida Keys to Barbara Parker s Suspicion of Betrayal in Miami to Tim Dorsey s Florida Roadkill at Cape Canaveral and Tampa these writers and their works span all of Florida s 67 counties A biographical sketch of each author precedes an interview by a critic who has immersed him or herself in the novelist s works producing interview essays of noteworthy perception and insight
