

My Summer

"Ring, ring, ring!" I jumped for joy at the sound of the school bell on the last day of school. I couldn't wait for school to be out because I knew I was going to have an amazing summer!

First of all, I went to Arizona to visit my Aunt Cindy. For two weeks, I had fun with my favorite aunt. When she saw me, she said, "How's my favorite niece?" I replied, "I'm your only niece!" We had a great time shopping, swimming, and baking cookies. It's always great to visit my Aunt Cindy.

After I got back home, I stayed up late many nights and watched a lot of movies. I like scary movies, but my mom always says, "Scary movies keep you up at night!" She won't let me watch them during the school year. However, she lets me watch some scary movies in the summer since I don't have to get up for school. Staying up late is awesome!

Finally, I did my favorite activity of all. I worked on my crafty scrapbooking projects. There were boxes of pictures just waiting for me to turn them into cute scrapbook pages. I missed my friends from school, so I enjoyed creating colorful pages to help me remember all the fun we had. I made some fantastic scrapbook pages!

I like school, but I love summer! It's really the best time of the year. I wish it would never end!

Poetter,2012-01-01 With Susan L M Bartow Lara A Chatman Daniel Ciamarra Christopher L Cox Dawn Mann Kevin J Smith Kevin M Talbert Mary A Webb and Amy Fisher Young 10 Great Curricula is a collection of stories written by educators who have come to understand curricula differently as a result of their engagement with a graduate course and its instructor The book represents the best of what can be found in teaching and learning in general and in the quest for meaningful ways to understand curricula in particular The co authors of this volume

on 10 Great Curricula framed their inquiries into progressive democratic curricula at least initially through Marsh and Willis 2007 notions of planned enacted and lived curricula These frames helped the writers think about how to engage a curriculum as it is developed delivered and lived by its participants and for the inquirers to actually become participantinquirers in the curriculum at hand The chapters depict the power the possibility and the transformational potential of great progressive curricula today by locating them in schools and in the community by making them come alive to the reader and by suggesting means through which the reader can adopt a more progressive democratic stance to curriculum despite the seemingly overwhelming nature of the conservative traditionalist instrumentalist movements in curriculum teaching and assessment today The book is intended for students of education teaching and curriculum undergraduates graduates and practicing educational professionals especially those looking for examples in the world in which progressive democratic ideals are nurtured and practiced

Speech and Thought Presentation in French Sophie Marnette, 2005-08-18 This book analyses and describes Speech and Thought Presentation S TP in French from a broad theoretical perspective building bridges between linguistic stylistic and narratological frameworks that have until now been developed separately It combines the French th orie de l nonciation and different Anglo Saxon approaches of reported discourse into a harmonious whole in order to create a new and exciting paradigm for our conception of S TP strategies Basing its findings on actual corpora and going beyond the canonical categories of reported discourse it shows that the study of S TP strategies is essential to our understanding of phenomena as diverse as the evolution and categorization of literary genres the production and staging of orality in literature the various conceptualizations of the notion of Truth in fiction and non fiction the expression of points of view in narrative the structuring of rhetorical strategies and the construction of the Self versus the representation of the Other in discourse
