

Emergency Response Guide

WHAT YOU HEAR & WHAT YOU DO

Code Green

A Code Green (All Clear) is used when another emergency response is canceled, such as a Code Red, Code Yellow or Severe Weather Alert. Code Green is the normal (safe) condition we are in every day.

Activation method: Intercom announcement

What you will hear: **CODE GREEN: ALL CLEAR** (followed by additional instructions)

1. Wait for additional instructions from a recognized administrator or emergency responder.
2. Resume normal school activities only when directed to do so.

Code Yellow

A Code Yellow (Shelter in Place) is used when an incident is occurring outside near the school that requires police, medical or fire response.

Activation method: Intercom announcement

What you will hear: **SECURITY ALERT: CODE YELLOW**

1. If students are outside the school, bring them inside.
2. Close and lock exterior doors and windows. Place signage on main entrance to inform visitors that the school is currently in Code Yellow.
3. Continue normal school activities as scheduled unless otherwise directed via intercom.
4. Remain inside the building until Code Green "All Clear" announcement.

Code Red

A Code Red is used when an unauthorized intruder is threatening school safety.

Activation method: Intercom announcement

What you will hear: **SECURITY ALERT: CODE RED**

1. Immediately implement 4E intruder procedures (educate, evade, escape, engage).
2. If **Escape** option is chosen (run):
 - a. Leave belongings and exit the building as quickly and safely as possible.
 - b. Once outside, go to nearest Rally Point and begin taking attendance. Wait for further instructions from first responders.
 - c. Prepare for transportation to family Reunification Point.
3. If **Evade** option is chosen (hide):
 - a. Lockdown in nearest room. Close and lock doors/windows, lower blinds, turn lights off.
 - b. Place cabinets, tables or desks in front of door, and move everyone away from doors/windows. Remain quiet and alert.
 - c. If door has a window, go where you cannot be seen through the window.
 - d. Take attendance including anyone missing.
 - e. Do not allow anyone to leave and do not open the door for anyone, even if the fire alarm sounds. If it is a true fire emergency, an announcement will be made over the intercom to evacuate the building.
 - f. Wait for Code Green followed by further instructions via intercom, or until police arrive at your door using proper identification.
4. If **Engage** option is chosen (fight):
 - a. Assertively use all means possible to disrupt or distract intruder.
 - b. Use noise, movement, distance or improvised weapons to your advantage and escape if safe to do so.
 - c. If able to overpower the intruder, hold the person down until help arrives.
 - d. Disarm intruder if possible, but do not attempt to use the weapon. Place in secure location such as trash can until police arrive.

Severe Weather

A Severe Weather Alert is used when students and staff need to take cover due to severe weather such as a Tornado Warning.

Activation method: Intercom announcement

What you will hear: **SEVERE WEATHER ALERT: PLEASE TAKE COVER**

1. Proceed immediately to designated severe weather shelter locations.
2. Do not allow anyone to stop for personal items, restroom use, etc.
3. Last person out of the room must close the door.
4. Once in shelter location, teachers take attendance and report any missing, injured or additional students to a school Crisis Team member.
5. Unless otherwise directed, instruct students to "duck and cover" under desks or facing a wall.
6. Remain in shelter location until Code Green "All Clear" announcement.

IF IT'S AN EMERGENCY, REMEMBER TO CALL 911.

Emergency Response Guide Guide 173:

Emergency Response Guidebook 2016 U.S. Department of Health and Human Services, 2016-08-12 PHMSA s 2016 Emergency Response Guidebook provides first responders with a go to manual to help deal with hazmat transportation accidents during the critical first 30 minutes *Fire Safety Management Handbook, Third Edition* Daniel E. Della-Giustina, 2014-02-07 Safety managers today are required to go beyond compliance with the latest fire codes to implement proactive fire safety management programs that improve profitability By reducing property loss insurance premiums and fostering an efficient work environment to help realize quality gains safety managers can add to the bottom line however they need a solid understanding of the duties and responsibilities for which they are accountable The Fire Safety Management Handbook is every safety manager s must have guide for developing a successful fire safety management program Emphasizing proactive fire safety activities that achieve optimal results the text presents the key elements that comprise an effective fire safety management program including a basic knowledge of Types and functions of fire control equipment Identification and control of hazardous materials Homeland security during disasters and emergencies Fire chemistry building construction and efforts to reduce losses due to fire Commonly installed fire detection systems and their maintenance and inspection National Fire Codes NFPA and federal state and local legislation and enforcement Available resources fire safety organizations and the United States Fire Administration USFA To provide current and future safety professionals with a better understanding of emergency management within the fire safety discipline each chapter of the Third Edition includes learning objectives at the beginning and questions at the end Case studies have been added codes and standards have been updated and a new chapter on emergency response planning has been included Plus a school fire safety plan that can be used as a template is now part of the appendices *Hazardous Materials Medicine* Richard Stilp, Armando Bevelacqua, 2023-03-20 Hazardous Materials Medicine Complete background on chemical exposures that create illnesses including assessment diagnosis and treatment protocols Written on a level that can be understood by field practitioners and or first responders Hazardous Materials Medicine Treating the Chemically Injured Patient provides an in depth understanding of how to diagnose and treat toxic chemical exposures in a prehospital or emergency department setting The protocols used in this book conform to the guidelines set forth in the NFPA 470 standard and the medical guidance developed by FEMA for Type I II III Deployable Hazmat Response Teams The hazardous materials medical protocols in this book have been fully vetted by three poison control toxicologists multiple emergency physicians and paramedics Hazardous Materials Medicine Treating the Chemically Injured Patient covers sample topics such as Scene assessment to help determine the cause of the exposure and exposure assessment to determine what physiologic systems are affected Toxic syndromes toxidromes to appropriately treat the exposed patient including corrosive and irritant asphyxiant cholinergic and hydrocarbon and derivative toxidromes Science behind a chemical exposure to allow for a complete understanding of both

the chemistry and physiology of what is occurring because of the exposure Interfacing between the on scene response team and the hospital to ensure consistency and continuity of care from the field into the hospital Enabling public safety and health professionals to administer effective care while retaining their own personal safety Hazardous Materials Medicine Treating the Chemically Injured Patient is a must have resource for emergency medical technicians paramedics hazmat technicians and emergency physicians and nurses working in high risk field situations with chemically injured patients

Critical Incident Management Vincent Faggiano, John McNall, Thomas T. Gillespie, 2011-11-15 Terrorism threats and increased school and workplace violence have always generated headlines but in recent years the response to these events has received heightened media scrutiny Critical Incident Management A Complete Resource Guide Second Edition provides evidence based tested and proven methodologies applicable to a host of scenarios t **HAZMAT Guide for First**

Responders Michael L. Madigan, 2017-05-19 The goal of this book is to help train hazmat response teams and other responders in disaster training techniques and planning The book will also help define and sharpen training plans and assumptions Focusing on lessons learned from real world experiences during actual disasters the book will help to establish a well trained professional 1st responder individuals and teams Such lessons are emphasized so that planners and responders learn to anticipate how their community is likely to react under real disaster conditions and plan accordingly *Vehicle*

Rescue and Extrication: Principles and Practice, Revised Second Edition David Sweet, 2021-06-25 This textbook helps technical rescue professionals remain safe and capable by delivering the most current practical skills and information available on today s increasingly technical vehicles 2017 CFR Annual Print Title 29 Labor Part 1926 Office of The Federal Register, 2017-07-01 **Hazardous Materials and Waste Management** Nicholas P. Cheremisinoff, Paul N.

Cheremisinoff, 1995-12-31 The management of hazardous materials and industrial wastes is complex requiring a high degree of knowledge over very broad technical and legal subject areas Hazardous wastes and materials are diverse with compositions and properties that not only vary significantly between industries but within industries and indeed within the complexity of single facilities Proper management not only requires an understanding of the numerous and complex regulations governing hazardous materials and waste streams but an understanding and knowledge of the treatment post treatment and waste minimization technologies In fact today s environmental manager must face working within twelve environmental management arenas all of which may be applicable regardless of the size of the operation or business This volume has been written as a desk reference for the Professional Hazards Manager PHM The PHM is a qualified environmental manager that has the responsibility of ensuring that his or her facility or division within the corporation is in compliance with environmental statutes and regulations as well as participating in the selection of technologies and approaches to remediation pollution control and in implementing waste minimization practices These decisions require knowledge and understanding of the federal state and local environmental regulations a working knowledge of the best

available technologies and their associated cost This volume provides an overview of both the technology and compliance requirements that will assist environmental managers in addressing facility management of hazardous wastes pollution control and waste minimization The book has been designed in part as a study guide to help prepare qualified individuals for the national certification and registration program of Professional Hazards Managers conducted by the National Association of Safety Health Professionals and other organizations including the Hazard Materials Control Resources Institute HMCRI and Fairleigh Dickinson University **Hazardous Waste Tracking and Cost Accounting Practice** Richard T. Enander, 2022-03-23 Environmental challenges have never been greater than today There is the need for the utmost accuracy in the efforts to track the use manufacture processing treatment and disposal of toxic and hazardous materials Legislation passed over the last twenty years has not only resulted in improved environmental quality but has also created new levels of accountability for today s environmental professional This book helps companies meet the ever growing number of recordkeeping reporting and information management demands It assists the practicing professional who must keep facility records relating to the generation and management of solid and hazardous waste Specific guidance is given on the principles of waste material tracking by point of generation and fully loaded waste management cost accounting

ECIME 2015-9th European Conference on IS Management and Evaluation Dr Elias Pimenidis and Dr Mohammed Odeh, 2015-09-07 The 9th European Conference on Information Management and Evaluation ECIME is being hosted this year by the University of the West of England Bristol UK on the 21-22 September 2015 The Conference Chair is Dr Elias Pimenidis and the Programme Chair is Dr Mohammed Odeh both from the host University ECIME provides an opportunity for individuals researching and working in the broad field of information systems management including IT evaluation to come together to exchange ideas and discuss current research in the field This has developed into a particularly important forum for the present era where the modern challenges of managing information and evaluating the effectiveness of related technologies are constantly evolving in the world of Big Data and Cloud Computing We hope that this year s conference will provide you with plenty of opportunities to share your expertise with colleagues from around the world The keynote speakers for the Conference are Professor Haris Mouratidis from the School of Computing Engineering and Mathematics University of Brighton UK who will address the topic Rethinking Information Systems Security Dr Mohammed Odeh from the University of the West of England Bristol UK and Dr Mario Kossmann from Airbus UK who will talk about The Significance of Information Systems Management and Evaluation in the Aerospace Industry ECIME 2015 received an initial submission of 55 abstracts After the double blind peer review process 28 academic Research papers 5 PhD Research papers 1 Masters Research paper and 3 Work in Progress papers have been accepted for these Conference Proceedings These papers represent research from around the world including Austria Botswana Cyprus Czech Republic Ireland Japan Kuwait New Zealand Norway Poland Portugal Slovakia Russia South Africa South Korea Sweden The Netherlands UK and the USA **Environmental**

Compliance Handbook, Volume 4 Daniel T. Rogers, 2022-11-08 Environmental laws and regulations are extremely complex and difficult to understand In order to comply with them they need to be explained in layperson s terms This handbook identifies many changes in regulations and recommends ways to apply and implement them Containing the latest environmental information this volume goes beyond environmental regulations in two fundamental aspects sustainability and preparation for future requirements before mandates are enacted Structured as a step by step how to book readers will find real life examples for the most important aspects of evaluating sustainability initiatives and preparing for new and revised environmental regulations Features Explores all sustainability related concepts and regulations and the requirement of any control permits available up to date Answers in depth all practical questions that arise when working on compliance projects for future requirements Addresses a wider spectrum of sustainability issues that go beyond chemical based contamination and environmental regulations and examines the impacts of climate change Includes many real life examples and case studies from industry and institutions that comply with sustainability regulations It is global in coverage and very useful to companies that plan to expand operations outside their country and are interested in future regulations

Environmental Compliance Handbook, 4 Volume Set Daniel Rogers, 2024-10-18 Environmental laws and regulations are extremely complex and difficult to understand In order to comply with them they need to be explained in layperson s terms This handbook identifies many changes in regulations and recommends ways to apply and implement them It contains the latest and most up to date environmental information divided into four volumes each focused on Air Water Land and Sustainability Readers will find real life examples for the most important aspects of environmental protection and a comprehensive coverage of all areas of environmental regulation and concerns Features Discusses up to date legislation and examples of what to look for and how to present it in a compliance report Includes new areas which have become more highly regulated and are of current importance Addresses a wider spectrum of issues that go beyond chemical based contamination and environmental regulations and examines the impacts of climate change Includes many real life examples and case studies from industry and institutions that comply with environmental regulations Global coverage of regulations which are very useful to companies that have expanded operations outside their country of origin
