

A woman's silhouette is shown in profile, facing right. Her hair is styled in a braid. A bright light source from the left creates a strong highlight on her hair and the back of her neck. In the background, a faint, glowing DNA double helix structure is visible, rendered in a reddish-pink hue. The overall lighting is dark and moody, with a focus on the woman's silhouette and the glowing elements.

**Stories of Tonality in the Age of**  
**François-Joseph Fétis** Thomas Christensen, 2019-06-14 Stories of Tonality in the Age of François Joseph Fétis explores the concept of musical tonality through the writings of the Belgian musicologist François Joseph Fétis 1784 1867 who was singularly responsible for theorizing and popularizing the term in the nineteenth century Thomas Christensen weaves a rich story in which tonality emerges as a theoretical construct born of anxiety and alterity for Europeans during this time as they learned more about other musics and alternative tonal systems Tonality became a central vortex in which French musicians thought and argued about a variety of musical repertoires be they contemporary European musics of the stage concert hall or church folk songs from the provinces microtonal scale systems of Arabic and Indian music or the medieval and Renaissance music whose notational traces were just beginning to be deciphered by scholars Fétis s influential writings offer insight into how tonality ingrained itself within nineteenth century music discourse and why it has continued to resonate with uncanny prescience throughout the musical upheavals of the twentieth and twenty first centuries

**Civilizing Emotions** Margrit Pernau, Helge Jordheim, Orit Bashkin, Christian Bailey, Oleg Benesch, Jan Ifversen, Mana Kia, Rochona Majumdar, Angelika C. Messner, Myoung-kyu Park, Emmanuelle Saada, Mohinder Singh, Einar Wigen, 2015-08-27 At the beginning of the twenty first century the vocabulary of civility and civilization is very much at the forefront of political debate Most of these debates proceed as if the meaning of these words were self evident This is where Civilizing Emotions intervenes tracing the history of the concepts of civility and civilization and thus adding a level of self reflexivity to the present debates Unlike previous histories Civilizing Emotions takes a global perspective highlighting the roles of civility and civilization in the creation of a new and hierarchized global order in the era of high imperialism and its entanglements with the developments in a number of well chosen European and Asian countries Emotions were at the core of the practices linked to the creation of a new global order in the nineteenth century Civilizing Emotions explores why and how emotions were an asset in civilizing peoples and

societies their control and management but also their creation and their ascription to different societies and social groups The study is a contribution to the history of emotions to global history and to the history of concepts three rapidly developing and innovative research areas which are here being brought together for the first time Race in France Herrick Chapman, Laura L. Frader, 2004-06-01 Scholars across disciplines on both sides of the Atlantic have recently begun to open up as never before the scholarly study of race and racism in France These original essays bring together in one volume new work in history sociology anthropology political science and legal studies Each of the eleven articles presents fresh research on the tension between a republican tradition in France that has long denied the legitimacy of acknowledging racial difference and a lived reality in which racial prejudice shaped popular views about foreigners Jews immigrants and colonial people Several authors also examine efforts to combat racism since the 1970s *Working Girls* Patricia Tilburg, 2019-10-31 As the twentieth century dawned and France entered an era of extraordinary labor activism and industrial competition an insistently romantic vision of the Parisian garment worker was deployed by politicians reformers and artists to manage anxieties about economic and social change Nostalgia about a certain kind of France was written onto the bodies of the capital's couture workers throughout French pop culture from the 1880s to the 1930s And the midinettes as these women were called were written onto the geography of Paris itself by way of festivals monuments historic preservation and guide books The idealized working Parisienne stood in for at once the superiority of French taste and craft and the political and sexual subordination of French women and labour But she was also the public face of more than 80 000 real working women whose demands for better labour conditions were inflected distorted and in some cases amplified by this ubiquitous Romantic type in the decades straddling World War I *Working Girls* bridges cultural histories of the Parisian imaginary and histories of French labour and puts them in raucous dialogue with one another a letter by a nineteen year old seamstress a speech by a government minister a frothy Parisian guide by a bon vivant the minutes of a union meeting a bawdy caf concert song a policy brief on garment working conditions *Humanitarian Intervention, Colonialism, Islam and Democracy* Gustavo Gozzi, 2021-04-13 This book offers a critical analysis of the European colonial heritage in the Arab countries and highlights the way this legacy is still with us today informing the current state of relations between Europe and the formerly colonized states The work analyses the fraught relationship between the Western powers and the Arab countries that have been subject to their colonial rule It does so by looking at this relationship from two vantage points On the one hand is that of humanitarian intervention a paradigm under which colonial rule coexisted alongside humanitarian policies pursued on the dual assumption that the colonized were barbarous peoples who wanted to be civilized and that the West could lay a claim of superiority over an inferior humanity On the other hand is the Arab view from which the humanitarian paradigm does not hold up and which accordingly offers its own insights into the processes through which the Arab countries have sought to wrest themselves from colonial rule In unpacking this analysis the book traces a history of international and colonial law to

and culture     Education in France ,1966     **The Black Populations of France** Sylvain Pattieu,Emmanuelle Sibeud,Tyler Edward Stovall,2022-02 The Black Populations of France is a study of Black peoples and their history in France and the French Empire during the modern era from the eighteenth century to the present The contributors to this collection explore three main axes The first addresses circulations the ways Black populations have moved through the spaces of metropolitan France and the empire and focuses on the actors themselves and the margins of maneuver available to them particularly as soldiers sailors immigrants or political militants The second considers legacies and the ways the past has informed the present addressing themes such as the memory of slavery the histories of Black women and gender and the historical influence of African Americans on Blacks in France The final axis considers racial policy and the ways the state has shaped racial discourses through the interactions between state policies and ideas of race developed by individuals organizations and communities The Black Populations of France makes an important contribution to both modern French history and the history of the global Black diaspora By putting these histories in dialogue with each other it underscores the central place of France in world history     **Discriminating Democracy** Emmanuelle Sandrine Chapin,2011 The dissertation analyzes the projects of popular theater devised by the republican governments and assemblies 1878 to 1893 in order to understand the conflicted point of view of republicans with regard to the democratization of art In the 1880s the four state subsidized theaters the Op ra the Op ra Comique the Com die Fran aise and the Od on had a very select audience Yet republicans were divided on the issue of its diversification On the one hand the purportedly inferior moral capacities of the popular public made dramatic performances hazardous without a prior education of its will On the other hand it was fair to let people who paid for the upkeep of state subsidized theaters access these institutions and to fulfill the wish of a significant part of the population to acquaint themselves with high brow culture The successive projects of popular theater represent the various solutions imagined by republican governments to reconcile two contradictory impulses democratization and discrimination They show how a culture of prejudices inherited from previous regimes progressively came to terms with a new conception of justice more respectful of individuals autonomy and sovereignty At the end of the 1870s the minister of public instruction and fine arts Ag nor Bardoux denied that the state had any responsibility to democratize art He variously argued that democratization happened spontaneously or that the artistic mission of the state did not include the dissemination of works Jules Ferry believed that the state owed a theater to the lower classes but convinced that lower classes were inferior in their aptitudes he imagined a popular lyric theater that would be the pale copy of the Op ra Finally L on Bourgeois accepted the director of the Op ra s proposition that the institution should organize reduced price performances Bourgeois thought it more conducive to social peace to promote a common culture than to cultivate separate class identities In his mind the difference between the people and the elite should consist in their respective degrees of exposure to high brow culture The study of theatrical democratization in the 1880s shows that French republicans abided by two principles of government One which

reflected the republicans universalist credo advocated the equal treatment of individuals by virtue of their equal rights The other inspired by utilitarian tenets defended the differentiated treatment of individuals on the grounds of their unequal aptitudes This dissertation argues that the ambiguity of the notion of merit in the republicans discourse did it lie in the essence of a social group or was it the result of individuals actions informed a tension between the desire to extend liberties and democratize elite practices on the one hand and the perceived necessity to control activities and discriminate against the people on the other

*Denaturalized* Claire Zalc,2020-10-13 In *Denaturalized* Claire Zalc combines the precision of the scholar with the passion of a storyteller This is a deftly written book Zalc combines in an accessible style smoothly translated by Catherine Porter the stories of people trapped within a bureaucracy that was as obsessed perhaps with clearing files as with hunting Jews In other words Zalc reminds us how cruel the banality of indifference could be Wall Street Journal Winner of the Prix d histoire de la justice A leading historian radically revises our understanding of the fate of Jews under the Vichy regime Thousands of naturalized French men and women had their citizenship revoked by the Vichy government during the Second World War Once denaturalized these men and women mostly Jews who were later sent to concentration camps ceased being French on official records and walked off the pages of history As a result we have for decades severely underestimated the number of French Jews murdered by Nazis during the Holocaust In *Denaturalized* Claire Zalc unearths this tragic record and rewrites World War II history At its core this is a detective story How do we trace a citizen made alien by the law How do we solve a murder when the body has vanished Faced with the absence of straightforward evidence Zalc turned to the original naturalization papers in order to uncover how denaturalization later occurred She discovered that in many cases the very officials who granted citizenship to foreigners before 1940 were the ones who retracted it under Vichy rule The idea of citizenship has always existed alongside the threat of its revocation and this is especially true for those who are naturalized citizens of a modern state At a time when the status of millions of naturalized citizens in the United States and around the world is under greater scrutiny *Denaturalized* turns our attention to the precariousness of the naturalized experience the darkness that can befall those who suddenly find themselves legally cast out
