

Chapter 2

Investing and Financing Decisions and the Balance Sheet

ANSWERS TO QUESTIONS

1. The primary objective of financial reporting for external users is to provide useful economic information about a business to help external parties, primarily investors and creditors, make sound financial decisions. These users are expected to have a reasonable understanding of accounting concepts and procedures. Usually, they are interested in information to assist them in projecting future cash inflows and outflows of a business.
2.
 - (a) An asset is a probable future economic benefit owned by the entity as a result of past transactions.
 - (b) A current asset is an asset that will be used or turned into cash within one year; inventory is always considered a current asset regardless of how long it takes to produce and sell the inventory.
 - (c) A liability is a probable debt or obligation of the entity as a result of a past transaction, which will be paid with assets or services.
 - (d) A current liability is a liability that will be paid in cash (or other current assets) or satisfied by providing service within the coming year.
 - (e) Contributed capital is the financing provided to the business by owners; usually owners provide cash and sometimes other assets such as equipment and buildings.
 - (f) Retained earnings are the cumulative earnings of a company that are not distributed to the owners and are reinvested in the business.
