Taser Electronic Control Devices and Sudden In-custody Death Howard E. Williams, 2008 After reviewing the available evidence from this extensive case study the author concludes that these conducted energy weapons are excluded as the cause of death in 182 of the 212 cases In only two cases did the evidence tend to confirm the weapon was either a cause of death or a significant contributing factor While arguing that the TASER electronic control devices are safe less lethal weapons the author also cautions that they are not completely effective

Finding Runaways and Missing Adults Robert L. Snow, 2012-03-29 Every year in the United States almost two million children run away from home In addition on the average the police in our country have at any one time over 100 000 active missing adult cases This book will show readers how with just a little advance preparation and insight they can greatly increase their chances of finding a missing loved one even after police have stopped actively looking With sensationalized child disappearances teenagers vanishing and adults faking their own deaths the challenge of finding missing persons often falls most directly on those who love them And though in past years this involved a considerable amount of footwork that is no longer the case With the advent of the Internet and the many new search engines available much of the searching and canvassing can now be done from computers Family members and friends looking for missing loved ones need to know what programs and databases to access though to get the search under way Snow reveals to readers the process the police use when trying to locate missing people of interest information that readers can then use to locate their own missing loved ones Using real stories and first

hand accounts the author offers hope and guidance to those who may have given up the search for a child a spouse a parent or a friend The Trunk Murderess Jana Bommersbach,2011-09-30 If history is right a 26 year old beauty named Winnie Ruth Judd murdered her two best girlfriends one hot Phoenix night in 1931 Then she hacked up their bodies stuffed the pieces into a trunk and took them by train to Los Angeles as her baggage If history is right she was sentenced to die but cheated the gallows by acting insane She spent nearly 40 years in Arizona s insane asylum flummoxing officials by escaping six times If history is right she only got her freedom at age 66 after serving more time than any other convicted murderer in the history of the nation because Arizona was finally tired of punishing her But if history is wrong Winnie Ruth Judd s life was squandered in a horrible miscarriage of justice Award winning journalist Jana Bommersbach reinvestigates the twisted bizarre murder case that has captivated the nation for decades She not only uncovers evidence long hidden but gets Winnie Ruth Judd to break her life long silence and finally speak In telling the story of this American crime legend Bommersbach also tells the story of Phoenix Arizona a backwater town that would become a major American city and the story of a unique moment in American history filled with social taboos But most of all she tells the story of a woman with the courage to survive **Federal Register** ,2012-06 **Hearings, Reports and Prints of the Senate Select Committee on Presidential Campaign Activities** United States.
