Dudu, 2023-03-01 This book critically examines the role of governments in promoting parity during and in post pandemic education This comes from the realisation that the pandemic has deepened the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices where those on the margins would have been pushed further behind while the privileged would have been further initiated

into the cultural and capital flows of private schools and historically research intensive institutions of higher learning This has far reaching implications for the education of underprivileged citizens and education particularly modes and modalities of delivery has to be reimagined to subvert the challenges wrought by the pandemic This book significantly bridges the gap between the pre and post COVID 19 pandemic pedagogical practices and the erstwhile modalities that have been resilient over time The book focuses on ways to stave off pedagogical challenges that face countries as the global pandemic makes its mark *Decolonising Higher Education in the Era of Globalisation and Internationalisation* Kehdinga George

Fomunyam,2019-07-01 Conceived within a context of transdisciplinarity and pluriversalism and in rigorous response to the Eurocentric globalising and nationalising structures of power that undergird and inhabit contemporary praxis in higher education especially in African higher education this collection of essays brings to the on going discourse on decolonisation fresh rich probing and multilayered perspectives that should accelerate the process of decolonisation not only in higher education in Africa but also in the global imaginary A remarkable courageous and potentially revolutionary achievement this book deserves a special place on curricula throughout the world of higher education *The International Handbook of*

Kabanda,Hussein Suleman,Stefan Gruner,2018-12-31 This book constitutes the refereed proceedings of the 47th Annual Conference of the Southern African Computer Lecturers Association on ICT Education SACLA 2018 held in Gordon s Bay South Africa in June 2018 The 23 revised full papers presented together with an extended abstract of a keynote paper were carefully reviewed and selected from 79 submissions The papers are organized in topical sections playfulness media and classrooms academia and careers teaching programming adaptation and learning teamwork and projects learning systems topic teaching **From Technology Transfer to Intercultural Development** S. Strijbos,Jan van der Stoep,2012-02-01

The idea for this book has been born in a dialogue between the authors of In Search of an Integrative Vision for Technology 2006 and a group of scholars and practitioners from South Africa whose research and development activities focuses on problems of traditional African society and culture Although there existed awareness in the writing of the earlier book that the search for normativity for our technological society should encompass the different cultural spheres of the world no

attention has been paid to the problem of interculturality Focussing on the development of technology in the developed societies the emphasis was laid on finding a basis for interdisciplinarity bridging the gaps between the sciences and humanities as well as between theory and practice According to the vision that has been elaborated on in the above book not the autonomous dynamics of technology as a free flying projectile should determine the future of our global world but guidance has to be provided by a normative perspective on technology for the common good of all people and cultures Following further this line of research the current book aims to address explicitly the intercultural dimension of technology in our globalising world Acta academica ,2007
