Mac Troubleshooting (Macworld Superguides) , Macs run smoothly most of the time This book will prepare you for the rare occasions when yours doesn't Whether you're using an iMac MacBook or Macbook Air our Superguide is filled with solutions for many of the common problems that you might run into In the United States when you're in real trouble you have but one number to call 911 Back in 2000 while we were racking our brains for a title for Macworld's tips and troubleshooting column we invoked this emergency calling code preceding it with Mac so that its humble author me wouldn't be additionally inundated with requests for help with small appliances and domestic disputes Thus Mac 911 became the primary place to go within Macworld's pages for help with all things Apple We've distilled the Mac troubleshooting knowledge we've acquired over the past 10 years of putting together columns and created the Mac Troubleshooting Superguide the latest in Macworld's popular

Superguide series Since the Mac 911 column's birth we've seen the death OS 9 and rebirth OS X of the Mac OS the coming and going of countless Mac models and the explosion of the Internet We've also witnessed the metamorphosis of Apple the computer company into Apple the media and telecommunications giant responsible for two of the most game changing products of the young century the iPod and iPhone Yet through all these changes one constant remains the desktops and laptops that we increasingly rely on for our work and pleasure sometimes act up in frustrating ways Fortunately as exasperating as these hiccups may be they are often predictable In this guide we attempt to present the difficulties you might encounter in the order in which you're likely to encounter them If for example something goes amiss as you're installing the latest greatest version of OS X you can be assured that you'll find it in the first chapter Installation If later in the day you press your Mac's power button and nothing good results you'll find help in the next chapter which addresses start up issues crashes and freezes Have a problem with hardware next Simply page on to Hardware Help And so on through the System Issues Fixes OS X's Applications the Internet Networking and Mac Maintenance chapters And if despite all of your diligent efforts no solution is found there are directions for what to do next in the Support Tricks chapter But allow me to also extend a personal invitation to Macworld's Mac 911 forum where I and other knowledgeable Mac users are eager to lend a helping hand

Managing the Laboratory Animal Facility Jerald Silverman, 2016-10-14 Praise for the Previous Editions The author brings in management wisdom from the world outside laboratory animal medicine and veterinary medicine As a result there is a rich mixture of the experience of a seasoned professional and the theoretical framework used by schools of management I recommend this book to managers and laboratory animal specialists at any stage of their careers Franklin M Loew DVM PhD DACLAM JAVMA Vol 222 No 6 2003 This book is a good informational resource for any new manager to the field of laboratory management The information is presented in a way that will keep your interest and stimulate you to think how it can benefit you and the facility in which you work Susan K Cutter BS RVT RLATG Purdue University West Lafayette Indiana USA LAMA Review Written in Jerry Silverman's trademark style **Managing the Laboratory Animal Facility** Third Edition provides the reader with sound management theory and associated management practices that are easy to read easy to understand easy to implement and pertinent to the daily management and leadership of laboratory animal facilities Maintaining the practical focus of previous editions this greatly expanded volume presents the critical knowledge needed to help you make efficient and effective use of the key resources that are used every day by vivarium managers people time money and information New to the Third Edition Incorporating the latest developments in management theory and application the edition contains approximately 100 pages of new and expanded material This more detailed coverage Discusses lean management concepts and practices and their application to laboratory animal science Adds information on many essential topics especially in human resources management in its treatment of negotiations influence and performance reviews Provides a large number of revisions and updates to Appendix 2 in its presentation of Per diem calculations Includes

an extensive list of references for further study of specialized topics

Total Snow Leopard (Macworld Superguides)
