Anderson,Ivan Waggoner,2014-12-09 What should be the role of the criminal law in controlling corporate behavior and how can the execution of that role be improved On the one hand corporations have enormous power and when a corporation causes harm there is a natural instinct to apply criminal sanctions society s most serious expression of moral disapproval In the wake of a harm in which a corporation had a

prominent role there are often calls for an increased use of the criminal law to tame corporate excesses On the other hand criminal liability has historically usually required criminal intent a concept that applies oddly to a legal construction such as a corporation And more recently critics have decried what they have termed the overcriminalization of corporate behavior suggesting that there has been an overreliance on the use of criminal law in this context To provide guidance to policymakers on the proper role of criminal sanctions in this context RAND Corporation researchers 1 measure the current use of criminal sanctions in controlling corporate behavior 2 describe how the current regime developed and 3 offer suggestions about how the use of criminal sanctions to control corporate behavior might be improved Unedited summary from book cover
