Interactive Study Guide

Natural resources are materials found in nature that humans use. We use these resources for survival. They also make our lives easier. Water, food, electricity, furniture, and clothing all come from natural resources. Some of these resources are renewable and some are nonrenewable.

Renewable resources are ones that can easily be replaced, as long as we are careful. Some examples are trees and wind.

In the box, draw a picture of a natural resource you use daily.

Nonrenewable resources are using more quickly than they are replaced. They are found inside the earth and take millions of years to form. Some examples include coal and oil. Fossil fuels are nonrenewable resources used for energy. Fossil fuels include oil, coal, and natural gas. Fossil fuels are burned and cause pollution. There are renewable resources that can be used for our
