Business Research Projects for Students A. D. Jankowicz, 2013-11-11 The idea for this book came about one Friday afternoon towards the end of a summer term I was giving the third project tutorial of the afternoon The first had been to a BA Business Studies student the second to a part time MBA student and the third to a student registered on the Diploma in Personnel Management programme and a great variety of issues had been dealt with during the course of the time involved Nevertheless I noticed that some of the material was common to all three students I found myself thinking that I was repeating myself and wanting to get through the basics as quickly as possible so that we could move on to the specifics of each particular project which we both each student and I found more interesting to deal with Unfortunately the basics were precisely those topics which I considered essential to the success of any project What's more they dealt with the sort of material which wouldn't on the whole have occurred spontaneously to many students and so it was a necessary part of my job to go through them One or two could be dealt with by issuing a handout and the student could be referred to the library for some of the rest but there wasn't a systematic written compilation of all the points that I needed to make **COMPLETE**

MBA Rittik Chandra, 2013-07-25 **COMPLETE MBA** is the **ULTIMATE GUIDE** to provide knowledge of the underlying theoretical background and knowledge of management practice This book comprises most important subjects such as 1 BUSINESS ETHICS 2 BUSINESS LAWS 3 BUSINESS COMMUNICATION 4 ORGANIZATIONAL BEHAVIOUR 5 FINANCIAL MANAGEMENT 6 BANKING 7 PRODUCTION MANAGEMENT 8 MARKETING MANAGEMENT 9 PROJECT MANAGEMENT 10 HUMAN RESOURCE MANAGEMENT 11 INTERNATIONAL BUSINESS 12 RESEARCH METHODS IN MANAGEMENT 13 ENTREPRENEURSHIP The major objectives of this book i.e. **COMPLETE MBA** are as follows Foster knowledge of different business administration and management disciplines Appreciate the practice of management Develop critical thinking and analytical skills Develop problem solving and decision making skills Understand team dynamics and team work in the workplace Develop skills to write succinct reports and present reports to stakeholders Make students career ready for positions in business and management *MBA in ENTREPRENEURSHIP* Rittik Chandra, 2013-07-11 The Masters in Business Administration MBA is a master's level qualification targeted at students from diverse undergraduate programs of study The MBA would provide students with knowledge of the underlying theoretical background and knowledge of management practice The major objectives of the MBA program with an entrepreneurship specialism are as follows Foster knowledge of different business administration and management disciplines Appreciate the practice of management particularly from an entrepreneur's perspective Develop critical thinking and analytical skills Develop problem solving and decision making skills Understand team dynamics and team work in the workplace Develop skills to write succinct reports and present reports to stakeholders Make students career ready for positions in business and management or to start up or manage their own businesses

Business Research Projects A. D. Jankowicz, 2013-11-11 about management research has

developed and made a more prominent appearance in the relevant literature Both the Academy of Management Review and Management Education and Development have devoted complete special issues to these topics in their impact on theory building and research see section 6 5 While the latter journal continues its editorial team have decamped to set up a new periodical Management Learning which emphasizes current thinking about management research This the New Paradigm postmodern analysis call it what you will is an epistemology whose relevance I argued in my first edition and continue to emphasize in Chapter 6 of the present The appreciation of qualitative approaches to the understanding of organizational life has increased during the last four years approaches seen as complementary to quantitative analysis by many a substitute by some The appearance of the second edition of Miles and Huberman 1994 indicates the growing importance attached to qualitative analysis by many management researchers and I have mentioned some of the techniques they advocate at relevant points in Part Three of this book without attempting or indeed being able to replicate their magnificent work Discourse analysis biography and hermeneutic analysis are among the recent approaches to which pointers are provided in Part Three Similarly the value of arguing a case rather than testing a thesis has been emphasized for some forms of Diploma and MBA work see section 6 4

PROFESSIONAL COMMUNICATION KAVITA TYAGI, PADMA MISRA, 2010-12-16 With the younger generation today seeking jobs in multinational corporations large companies or the civil services in the government and the competition becoming stiffer and stiffer with each passing day it is only natural that the ability to communicate effectively precisely as well as to acquire communication skills has become more important than ever before A plethora of books have flooded the

market to capitalize on this frantic effort of the younger generation to become adept in communication. And professional communication is no exception to this. This accessible and compact book on Professional Communication strives to focus on the communication skills needed for the professionals. Divided into five parts and 19 chapters, the book begins with a discussion on the concept of communication and then it goes on to give in detail features of a language as a tool of communication, the communication process, models and barriers to communication. The text also elaborates on word formation, vocabulary, sentence structure and paragraph development. In addition, it explains different forms of technical communication, the format, layout and style of business communication, technical documents such as theses, scientific articles and research papers and technical proposals. Furthermore, the book provides value-based text reading from celebrated writers. This student-friendly book suffused with practical examples is primarily intended as a textbook for the first-year students of engineering B.Tech of UP Technical University for their course on Professional Communication. It will also be of immense benefit to undergraduate students and technical professionals across the country.

KEY FEATURES

- Gives a broader perspective on communication and its barriers.
- Provides a more comprehensive division of the different types of reports.
- Elaborates on various approaches to presentation strategies.

ADVANCED TECHNICAL COMMUNICATION KAVITA TYAGI, PADMA MISRA, 2011-02-04

Businesses use technical writing extensively to communicate both within and outside the organization. And so it is essential for an individual aspiring to be an executive to master the art of communication. This accessible and compact book on Advanced Technical Communication discusses how students can learn and master not only the basic skills of communication but also complex skills such as soft skills and skills required for preparing technical documents. The book begins with a discussion on the concept of technical communication and then it goes on to describe the differences between technical writing and general writing and layout and format of business letters and resumes. What is more, it elaborates on technical documents such as technical proposals, reports and specialized documents like theses, research papers and dissertations, differentiating them adequately. Finally, the text covers many of the soft skills required today, for example, presentation skills, interpersonal skills and group discussion (GD) skills. This student-friendly book suffused with practical examples is primarily intended as a text for the first-year students of Engineering B.Tech of Uttarakhand Technical University for their course on Advanced Technical Communication. It will also be of immense benefit to undergraduate students in other universities and engineering colleges/institutes as well as technical professionals.

KEY FEATURES

- Provides comprehensive coverage of soft skills.
- Lays emphasis on corporate communication skills required for technical writing and producing technical documents by engineers and managers.
- Gives a critical evaluation as well as text of George Orwell's *Animal Farm*.
