

Important Safety Information is supplied in a separate document "Important Additional Operation Information Guide"

### Inside the Box

Besides all the protective packaging you should find:

- A literature pack including this manual
- An AC Power Cord
- An MHA200 Headphone Amplifier

### Taking it out of the Box

The easiest way to remove the MHA200 from its shipping carton is to:

- Open the top of the box
- Remove and read this manual
- Gently turn the box over with the flaps extended outward
- Lay the box upward to reveal the foam encased MHA200
- Carefully remove the MHA200 from the packaging

### Where to Put it

Place the MHA200 upright on a sturdy flat surface that can support its weight with adequate open space. Cool operation ensures the longest possible operating life for any electronic instrument. Always allow air to flow through the ventilation holes on the bottom of the amplifier and space for the warm air to escape at the top.

Allow at least 19 inches (48.3cm) above the top; 4 inches (10.2cm) for the Rear and Sides; allow 1/2 inch (1.3cm) below the Power Amplifier so the airflow is not obstructed. Do not remove the feet.

For dimensions see "Dimensions" on page 6.

### DO THIS FIRST

#### Removal of Foam Inserts over Vacuum Tubes

#### IMPORTANT!

#### REMOVE THE FOAM INSERTS OVER THE VACUUM TUBES PRIOR TO CONNECTING THE A.C. POWER SUPPLY CORD.

- To prevent damage to the Tubes during shipping, there are special foam inserts surrounding the Tubes of the Power Amplifier
- The Foam Inserts must be removed from the MHA200 before connecting the AC Power Supply Cord to the Power Amplifier
- Failure to do so has the potential of a Fire Hazard, resulting in damage to the MHA200 and the surrounding environment
- Follow these instructions for removal of the packing foam before connecting the AC Power Supply Cord to the MHA200

To remove the protective foam, it is necessary to temporarily remove the two Tube Covers. To remove each Tube Cover:

- Use a Phillips Head #2 screw driver to remove the two screws that hold the Tube Cover (see Figure 01)
- Pull the Tube Cover upward off of the Tube Cover Retaining Posts (see Figure 02)
- Pull the protective foam straight up off the Vacuum Tubes (see Figure 02)

- Replace the Tube Cover
- Replace the two screws to secure the cover to the Tube Cover Retaining Posts (see Figure 01)

Save the protective foam and warning label for possible future use.
