Avionics In Plain English Phil Croucher,2015-12-13 The rate of change in the field of avionics is so fast that even the legislators are struggling to keep up with it With new digital cockpits it is getting to the stage that if your VCR still flashes 12 00 you will have no business flying a modern helicopter The majority of twin engined and many single engined aircraft now have complex autopilots glass cockpits and navigation equipment possibly including Flight Management Systems FMS This book originated with a request from the RCAF for training materials for engineers but curious pilots whose training syllabus did not include avionics and who would like to know a little more will find it useful as well *Department of Transportation*
