1. **Abstract:** This paper presents a new approach to the design of a new generation of intelligent systems. The approach is based on the use of a new type of logic, called *Intelligent Logic*, which is a combination of the traditional logic and the fuzzy logic. The new logic is designed to handle the uncertainty and the vagueness of the human knowledge. The paper discusses the design of a new generation of intelligent systems, which are able to handle the uncertainty and the vagueness of the human knowledge. The paper also discusses the design of a new generation of intelligent systems, which are able to handle the uncertainty and the vagueness of the human knowledge.
