implementation in China between 1949 and 2000 when rural areas were in severe shortage of qualified teachers During this period of time minban teachers made great contributions to education doing the same work as state employed school teachers while receiving much lower salaries due to non official status With solid fieldwork on oral history of minban teachers and policy actors and deep examination of a wealth of policy documents in private and governmental archives the author records the life history of minban teachers the process of minban teacher policies and the interaction between policies and individual strategies in M county pseudonym located in northern Jiangsu province of China The book reveals many interesting and sometimes surprising findings about the characteristics of educational policy implementation in China While China's minban teacher policies have come to an end rural education continues to be a major concern of policymakers and researchers alike The book is an important piece of scholarship for the readers interested in rural education in China and in how state society and culture interact to influence teacher policies and management in the Chinese context **Mathematics**

Teaching in the Middle School, 2004 **B.H. Blackwell** B.H. Blackwell Ltd, 1928 Research Anthology on Usage and Development of Open Source Software Management Association, Information Resources, 2021-06-25 The quick growth of computer technology and development of software caused it to be in a constant state of change and advancement This

advancement in software development meant that there would be many types of software developed in order to excel in usability and efficiency. Among these different types of software was open source software, one that grants permission for users to use, study, change, and distribute it freely. Due to its availability, open source software has quickly become a valuable asset to the world of computer technology and across various disciplines including education, business, and library science. The *Research Anthology on Usage and Development of Open Source Software* presents comprehensive research on the design and development of open source software as well as the ways in which it is used. The text discusses in depth the way in which this computer software has been made into a collaborative effort for the advancement of software technology. Discussing topics such as ISO standards, big data, fault prediction, open collaboration, and software development, this anthology is essential for computer engineers, software developers, IT specialists, and consultants, instructors, librarians, managers, executives, professionals, academicians, researchers, and students.

Following an introduction that describes existing practices and delivery methods, the Directory offers three indexes: Subject Index of Courses Offered by Level, Course Level Index, Geographic Index. All information was supplied by the institutions. Entries include current contact information, a description of the institution and the courses offered, grade level, and admission information, tuition and fee information, enrollment periods, delivery information, equipment requirements, credit and grading information, library services, and accreditation.

Brain and Mathematical Cognition Xinlin Zhou, 2024-08-01 This book intends to present a series of insights coming from an in-depth investigation of brain and mathematical cognition in the Chinese population. Specifically, the book introduces research on the associations among number sense, visual form perception, and mathematical fluency; symbolic and non-symbolic mental number line; and the role of spatial modeling and logical inference in mathematical problem solving. The book summarizes the author's previous studies on the involvement of semantic network other than visuospatial network in mathematical cognition. The three-component mathematical model that comes out of more than 10 years of research on mathematical cognition is introduced. The book presents the effect of learning experience on arithmetic-related brain systems. Chinese abacus that can be used to eradicate developmental dyscalculia in classroom is briefly discussed. Special attention in this book is paid to mathematical anxiety and mathematical learning disorders in Chinese schoolchildren. Finally, gender differences in mathematical cognition are also reviewed.

Disabling the School-to-Prison Pipeline Laura Vernikoff, 2021-05-11 Young people who have received special education services in the United States are vastly overrepresented in juvenile and adult criminal justice systems relative to their numbers in the general population. Although much existing research blames individual kids for getting

arrested school level policies and practices affect a variety of student outcomes including involvement with the justice system These school level policies and practices can and should be altered by teachers administrators and policy makers to reduce the number of young people getting arrested Disabling the School to Prison Pipeline uses administrative data from New York City public schools and interviews with young people who have received special education services in NYC public schools and been arrested to better understand how schools can help or harm students receiving special education services Schools cannot fix all problems associated with the criminal justice system in the United States however we can certainly expect schools not to make existing problems worse This book identifies school level policies and practices that may lead to negative outcomes for students such as getting arrested and suggests alternatives **Bulletin** ,1915 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1977 **Leadership for Low-Performing Schools** Daniel L. Duke,2015-01-15 No greater challenge faces our society than improving the educational opportunities for millions of young people trapped in chronically low performing schools Overcoming this challenge requires talented and dedicated school leaders whose knowledge and skills extend far beyond what is covered in conventional principal preparation programs This book draws on extensive research by the author and others on the actions needed to turn around low performing schools First however the book examines the personal qualities needed to undertake the turnaround process Following chapters provide guidelines on diagnosing the school based causes of low achievement and developing a school turnaround plan The author focuses on the importance of continuous planning a departure from standard practice A major portion of the book is devoted to examples of first order and second order strategies for raising achievement Specific recommendations for launching the turnaround process and sustaining gains beyond the first years of turnaround are provided The concluding chapter addresses the role of school districts in supporting school based turnaround efforts **The National School Digest** ,1920 The Public Schools Year Book ,1921
