Midnight In Paris:

Flickers of Film Jason Sperb, 2015-12-15 Whether paying tribute to silent films in *Hugo* and *The Artist* or celebrating arcade games in *Tron Legacy* and *Wreck It Ralph* Hollywood suddenly seems to be experiencing a wave of intense nostalgia for outmoded technologies To what extent is that a sincere lament for modes of artistic production that have nearly vanished in an all digital era And to what extent is it simply a cynical marketing ploy built on the notion that nostalgia has always been one of Hollywood's top selling products In *Flickers of Film* Jason Sperb offers nuanced and unexpected answers to these questions examining the benefits of certain types of film nostalgia while also critiquing how Hollywood's nostalgic representations of old technologies obscure important aspects of their histories He interprets this affection for the prehistory and infancy of digital technologies in relation to an industry wide anxiety about how the digital has grown to dominate Hollywood pushing it into an uncertain creative and economic future Yet he also suggests that Hollywood's nostalgia for old technologies ignores the professionals who once employed them as well as the labor opportunities that have been lost through the computerization and outsourcing of film industry jobs Though it deals with nostalgia *Flickers of Film* is strikingly cutting edge one of the first studies to critically examine Pixar's role in the film industry cinematic representations of videogames and the economic effects of participatory culture As he takes in everything from *Terminator Salvation* to *The Lego Movie* Sperb helps us see what's distinct about this recent wave of self aware nostalgic films how Hollywood nostalgia today isn't what it used to be

Literature and Geography Emmanuelle Peraldo, 2016-01-14 In a period marked by the Spatial Turn time is not the main category of analysis any longer Space is It is now considered as a central metaphor and topos in literature and literary criticism has seized space as a new tool Similarly literature turns out to be an ideal field for geography This book examines the cross fertilization of geography and literature as disciplines languages and methodologies In the past two decades several methods of analysis focusing on the relationship and interconnectedness between literature and geography have flourished Literary cartography literary geography and geocriticism Westphal 2007 and Tally 2011 have their specificities but they all agree upon the omnipresence of space place and mapping at the core of analysis Other approaches like ecocriticism Buell 2001 and Garrard 2004 geopoetics White 1994 geography of literature Moretti 2000 studies of the inserted map Ljunberg 2012 and Pristnall and Cooper 2011 and narrative cartography have likewise drawn attention to space Literature and Geography The Writing of Space Throughout History following an international conference in Lyon bringing together literary academics geographers cartographers and architects in order to discuss literature and geography as two practices of space shows that literature along with geography is perfectly valid to account for space Suggestions are offered here from all disciplines on how to take into account representations and discourses since texts including literary ones have become increasingly present in the analysis of geographers

The Reluctant Film Art of Woody Allen Peter J. Bailey, 2016-05-27 For five decades no American filmmaker has been as prolific or as paradoxical as Woody Allen From Play It Again Sam 1972 to

Midnight in Paris 2011 and Blue Jasmine 2013 Allen has produced an average of one film a year yet in many of these movies Allen reveals a progressively skeptical attitude toward both the value of art and the cultural contributions of artists In this second edition Peter J Bailey extends his classic study to consider Allen s work during the twenty first century He illuminates how the director s decision to leave New York to shoot in European cities such as London Paris Rome and Barcelona has affected his craft He also explores Allen s shift toward younger actors and interprets the evolving critical reaction to his films authoritatively demonstrating why the director s lifelong project of moviemaking remains endlessly deserving of careful attention

Referentiality and the Films of

Woody Allen D. E. Wynter,2015-10-12 *Referentiality and the Films of Woody Allen* is a scholarly collection that provides expansive exploration of the auteur s use of intertextuality referentiality and fusion of media forms Its scope is framed by

Allen's intermedial phase beginning in 1983 with *Zelig* and his most recent film *Crossings in Text and Textile* Katherine Joslin, Daneen Wardrop, 2015-01-06 *Crossings in Text and Textile* explores the diverse range of transatlantic representations of clothing in nineteenth and early twentieth century literature. This collection of essays demonstrates that fashion history and literary history when examined together prompt fresh understandings of the complexities of race, class, and sexual identity. By bridging material culture and discourse, *Crossings* establishes the significance of fashion while neglecting none of its aesthetic appeal to offer historicized readings on a variety of topics from Jane Austen's nuanced display of social interactions through the economics of muslin to the 1871 Park and Boulton cross-dressing trial and Jessie Fauset's selection of apparel to express racial power. The geographic span of textiles from different economic areas around the globe includes Asia, Africa, Europe, and North America. By making use of transatlantic texts to consider the political and social positioning of both workers and consumers, the collection further expands upon the emerging cross-disciplinary study of reading dress. A true state-of-the-field work, *Crossings in Text and Textiles* charts new scholarly ground at the nexus between fashion, textiles, and literature, appealing to a broad interdisciplinary audience of scholars and students. **Paris** Adam Roberts, 2017-04-15 It is one of the world's most iconic cities, the center of romance, cuisine, and high culture, a place we are all implored to visit in spring and then forever hold in our hearts. Paris. But behind these familiar notions lies a bustling and deeply complex metropolis, one that offers visitors an unending array of surprises. This book takes readers and travelers to this other Paris, a city of love and danger alike, a city imbued with over 2,000 years of history, which Adam Roberts lovingly recounts alongside an expert tour of the city's sights, sounds, and flavors. Roberts tells the story of how a provincial backwater rose up to become one of the richest, most powerful, and most visited cities in Europe, a world leader in fashion, the arts, and gastronomy. He takes us back two millennia to when roaming Celtic tribes first set up camp on the banks of the Seine and from there moves through turbulent centuries full of the fates and fortunes of kings, marked by invasions, revolutions, and magnificent buildings constructed one after the other. He explores the city's renowned gothic architecture, the urban planning that has been revised throughout history, the mammoth museums that have been erected to preserve its artistic legacy, and the vibrant street culture that hosts markets, performers, and Paris's own flâneurs every single day. Along the way, he points out countless hidden gems, travelers rarely make it to, from a vintage candy shop to a museum of romantic life, from a hidden garden inside a hospital to a converted hair salon that hosts all things table tennis tournaments. And, of course, he shows readers where to eat, catch a show, and go for gorgeous sunset strolls. Offering a comprehensive but easily digestible overview, *Paris* is the perfect book for anyone planning a visit to the city or anyone who simply loves it from afar. *Apocalypses in Context* Kelly J. Murphy, Justin Jeffcoat Schedtler, 2016-09-01 Apocalyptic scenarios remain prevalent and powerful in popular culture, in television, film, comic books, and popular fiction, in politics, in debates on climate change, environmentalism, Middle East policy, and military planning, and in various religious traditions. The Clock Mirage Joseph Mazur, 2020-04-21. Named one of Book Riot's Six Great Nonfiction Books about Time, a tour of clocks throughout the centuries from the sandglass to the telomere that reveals the physical, biological and social nature of time. A mind stretching book. Skilfully written. John Carey Sunday Times London. What is time? This question has fascinated philosophers, mathematicians and scientists for thousands of years. Why does time seem to speed up with age? What is its connection with memory, anticipation and sleep cycles? Award winning author and mathematician Joseph Mazur provides an engaging exploration of how the understanding of time has evolved throughout human history and offers a compelling new vision, submitting that time lives within us. Our cells, he notes, have a temporal awareness guided by environmental cues in sync with patterns of social interaction. Readers learn that as a consequence of time's personal nature, a forty eight hour journey on the space shuttle can feel shorter than a six hour trip on the Soyuz capsule, that the Amondawa of the Amazon do not have ages and that time speeds up with fever and slows down when we feel in danger. With a narrative punctuated by personal stories of time's effects on truck drivers, Olympic racers, prisoners and clockmakers, Mazur's journey is filled with fascinating insights into how our technologies, our bodies and our attitudes can change our perceptions. Ultimately, time reveals itself as something that rides on the rhythms of our minds. *The Clock Mirage* presents an innovative perspective that will force us to rethink our relationship with time and how best to use it.
