**Varney's Midwifery** Julia Phillippi, Ira Kantrowitz-Gordon, 2023-09-25 Varney's Midwifery reflects current evidence based guidelines The Seventh Edition addresses care of women throughout the lifespan including primary care gynecology maternity care in a variety of settings and newborn care It also provides new content on social determinants of health the changing face of the population and the population that midwives serve It is known as the gold standard for midwifery practice Clinical Practice Guidelines for Midwifery & Women's Health Nell Tharpe, 2004 The 2004 2005 Clinical Practice Guidelines for Midwifery Women's Health approach midwifery care from a clinical perspective for the midwife who practices in any setting The Guidelines are designed to stimulate critical thinking while providing key resources for support of midwifery care

**Skills for Midwifery Practice Australian & New Zealand Edition** Sally-Ann De-Vitry Smith, Sara Bayes, 2022-02-28 This text provides clear easy to read guidance on more than 110 skills for midwifery students and midwives seeking to update their practice Underpinned with the most recent evidence based practice and research the second edition walks the reader through general and basic skills in a sequential and logical manner following a woman's journey through pregnancy labour and birth and postnatal care With a focus on the performance of midwifery skills rather than on the theory of midwifery practice Skills for Midwifery Practice Australia and New Zealand 2nd edition is an indispensable text to which students will return to again and again Endorsed by the Australian College of Midwives Step by step instructions for each skill Images and diagrams to aid understanding A woman centred approach and cultural considerations throughout Models of midwifery care Continuity of Care and Lead Maternity Carer's Model Australian NZ specific guidelines policies statistics terminology and medication administration guidelines 2012 Accountability Hearing with the Nursing and Midwifery Council Great Britain: Parliament: House of Commons: Health Committee, 2013-03-06 The Nursing and Midwifery Council NMC is a vital safeguard for care quality and patient safety but over a number of years the NMC has failed to understand its function and properly prioritise patient safety The new management team in the NMC is committed to address its failings However there continues to be a serious gap between current performance and acceptable standards The NMC has proposed that fitness to practise cases should be decided on average within 18 months of a complaint being received the Committee proposes that this should be reduced to 9 months with a maximum of 12 months The NMC also has had a poor track record of fitness to practise decisions being challenged and overturned The CHRE has needed to almost routinely refer NMC decisions to the High Court It is also unacceptable that the NMC underestimated the budget for its fitness to practise directorate by 30% The Government's intervention to limit the effect of the fee increase on registrants is welcomed However nurses and midwives still face a 32% fee increase at a time of public sector pay restraint A further fee increase can not be justified and the NMC should consider introducing a phased payment system for registrants The language and communication skills of nurses and midwives remain a concern MPs also question why the NMC has made

such slow progress on a system of revalidation Lastly many of the NMC s problems stem from inadequate IT infrastructure where two key systems cannot communicate directly and deliver incomplete or inaccurate information     **The Medical**
