Brothers of a Vow Ami Pflugrad-Jackisch, 2011-11-01 In *Brothers of a Vow* Ami Pflugrad Jackisch examines secret fraternal organizations in antebellum Virginia to offer fresh insight into masculinity and the redefinition of social and political roles of white men in the South Young Virginians who came of age during the antebellum era lived through a time of tremendous economic cultural and political upheaval In a state increasingly pulled between the demands of the growing market and the long established tradition of unfree labor Pflugrad Jackisch argues that groups like the Freemasons the Independent Order of Odd Fellows and the Sons of Temperance promoted market oriented values and created bonds among white men that softened class distinctions At the same time these groups sought to stabilize social hierarchies that subordinated blacks and women Pflugrad Jackisch examines all aspects of the secret orders including their bylaws and proceedings their material culture and regalia and their participation in a wide array of festivals parades and civic celebrations Regarding gender she shows how fraternal orders helped reinforce an alternative definition of southern white manhood that emphasized self discipline moral character temperance and success at work These groups ultimately

established a civic brotherhood among white men that marginalized the role of women in the public sphere and bolstered the respectability of white men regardless of class status Brothers of a Vow is a nuanced look at how dominant groups craft collective identities and it adds to our understanding of citizenship and political culture during a period of rapid change [A Current Bibliography on African Affairs](#), 2006 *Beyond the Line* Alice B. Aiken, Stéphanie A.H. Bélanger, 2013-11-01 Caring for veterans returning from service is just as important as preparing troops for deployment Beyond the Line is a collection of current research presented by the Canadian Institute for Military and Veteran Health Research an organization committed to finding the best solutions to address the range of health issues arising from military service Bringing together work by defence scientists and researchers and clinicians from several Canadian universities contributors present their findings on topics such as mental physical social rehabilitative and occupational health in addition to combat care Diverse topics ranging from technology to programs for children add depth and dimension Providing expert insight into healthcare for armed forces veterans and their families Beyond the Line engages the research community towards the common goal of improved healthcare services for Canada's military population **Orange Empire** Doug Sackman, 2005-02-07 This innovative history of California opens up new vistas on the interrelationship among culture nature and society by focusing on the state's signature export the orange From the 1870s onward California oranges were packaged in crates bearing colorful images of an Edenic landscape This book demystifies those lush images revealing the orange as a manufactured product of the state's orange industry Orange Empire brings together for the first time the full story of the orange industry how growers scientists and workers transformed the natural and social landscape of California turning it into a factory for the production of millions of oranges That industry put up billboards in cities across the nation and placed enticing pictures of sun-kissed fruits into nearly every American's home It convinced Americans that oranges could be consumed as embodiments of pure nature and talismans of good health But as this book shows the tables were turned during the Great Depression when Upton Sinclair Carey McWilliams Dorothea Lange and John Steinbeck made the Orange Empire into a symbol of what was wrong with America's relationship to nature [Bioinformatics and Functional Genomics](#) Jonathan Pevsner, 2005-03-04 Wiley is proud to announce the publication of the first ever broad-based textbook introduction to Bioinformatics and Functional Genomics by a trained biologist experienced researcher and award-winning instructor In this new text author Jonathan Pevsner winner of the 2001 Johns Hopkins University Teacher of the Year award explains problem solving using bioinformatic approaches using real examples such as breast cancer HIV 1 and retinal binding protein throughout His book includes 375 figures and over 170 tables Each chapter includes Problems discussion of Pitfalls Boxes explaining key techniques and math stats principles Summary Recommended Reading list and URLs for freely available software The text is suitable for professionals and students at every level including those with little to no background in computer science **Tending the Wild** M. Kat Anderson, 2005-06-14 A complex look at California Native ecological practices as a model for environmental sustainability

and conservation John Muir was an early proponent of a view we still hold today that much of California was pristine untouched wilderness before the arrival of Europeans But as this groundbreaking book demonstrates what Muir was really seeing when he admired the grand vistas of Yosemite and the gold and purple flowers carpeting the Central Valley were the fertile gardens of the Sierra Miwok and Valley Yokuts Indians modified and made productive by centuries of harvesting tilling sowing pruning and burning Marvelously detailed and beautifully written *Tending the Wild* is an unparalleled examination of Native American knowledge and uses of California's natural resources that reshapes our understanding of native cultures and shows how we might begin to use their knowledge in our own conservation efforts M Kat Anderson presents a wealth of information on native land management practices gleaned in part from interviews and correspondence with Native Americans who recall what their grandparents told them about how and when areas were burned which plants were eaten and which were used for basketry and how plants were tended The complex picture that emerges from this and other historical source material dispels the hunter gatherer stereotype long perpetuated in anthropological and historical literature We come to see California's indigenous people as active agents of environmental change and stewardship *Tending the Wild* persuasively argues that this traditional ecological knowledge is essential if we are to successfully meet the challenge of living sustainably
