**The CERT C Coding Standard** Robert C. Seacord, 2014 This book is an essential desktop reference for the CERT C coding standard The CERT C Coding Standard is an indispensable collection of expert information The standard itemizes those coding errors that are the root causes of software vulnerabilities in C and prioritizes them by severity likelihood of exploitation and remediation costs Each guideline provides examples of insecure code as well as secure alternative implementations If uniformly applied these guidelines will eliminate the critical coding errors that lead to buffer overflows format string vulnerabilities integer overflow and other common software vulnerabilities The CERT® C Coding Standard, Second Edition Robert C. Seacord, 2014-04-25 At Cisco we have adopted the CERT C Coding Standard as the internal secure coding standard for all C developers It is a core component of our secure development lifecycle The coding standard described in this book breaks down complex software security topics into easy to follow rules with excellent real world examples It is an essential reference for any developer who wishes to write secure and resilient software in C and C Edward D Paradise vice president engineering threat response intelligence and development Cisco Systems Secure programming in C can be more difficult than even many experienced programmers realize To help programmers write more secure code The CERT C Coding Standard Second Edition fully documents the second official release of the CERT standard for secure coding in C The rules laid forth in this new edition will help ensure that programmers code fully complies with the new C11 standard it also addresses earlier versions including C99 The new standard itemizes those coding errors that are the root causes of current software vulnerabilities in C prioritizing them by severity likelihood of exploitation and remediation costs Each of the text's 98 guidelines includes examples of insecure code as well as secure C11 conforming alternative implementations If uniformly applied these guidelines will eliminate critical coding errors that lead to buffer overflows format string vulnerabilities integer overflow and other common vulnerabilities This book reflects numerous experts contributions to the open development and review of the rules and recommendations that comprise this standard Coverage includes Preprocessor Declarations and Initialization Expressions Integers Floating Point Arrays Characters and Strings Memory Management Input Output Environment Signals Error Handling Concurrency Miscellaneous Issues Teaching Computational Thinking and Coding in Primary Schools David Morris, Gurmit Uppal, David Wells, 2017-05-22 This is a guide to the teaching of computing and coding in primary schools and an exploration of how children develop their computational thinking It covers all areas of the National Curriculum for primary computing and offers insight into effective teaching The text considers three strands of computer science digital literacy and information technology The teaching of coding is especially challenging for primary teachers so it highlights learning on this giving practical examples of how this can be taught For all areas of the computing curriculum the text also provides guidance on planning age appropriate activities with step by step guides and details of educationally appropriate software and hardware This book helps you to connect what you need to teach with how

it can be taught and opens up opportunities in the new curriculum for creative and imaginative teaching It also includes the full National Curriculum Programme of Study for Computing key stages 1 and 2 as a useful reference for trainee teachers

**The Cambridge Handbook of Instructional Feedback** Anastasiya A. Lipnevich,Jeffrey K. Smith,2018-11-15 This book brings together leading scholars from around the world to provide their most influential thinking on instructional feedback The chapters range from academic in depth reviews of the research on instructional feedback to a case study on how feedback altered the life course of one author Furthermore it features critical subject areas including mathematics science music and even animal training and focuses on working at various developmental levels of learners The affective non cognitive aspects of feedback are also targeted such as how learners react emotionally to receiving feedback The exploration of the theoretical underpinnings of how feedback changes the course of instruction leads to practical advice on how to give such feedback effectively in a variety of diverse contexts Anyone interested in researching instructional feedback or providing it in their class or course will discover why when and where instructional feedback is effective and how best to provide it

Romero-Trillo,2013-05-23 The Yearbook of Corpus Linguistics and Pragmatics 2013 discusses current methodological

debates on the synergy of Corpus Linguistics and Pragmatics research The volume presents insightful pragmatic analyses of corpora in new technological domains and devotes some chapters to the pragmatic description of spoken corpora from various theoretical traditions The Yearbook of Corpus Linguistics and Pragmatics series will give readers insight into how pragmatics can be used to explain real corpus data and in addition how corpora can explain pragmatic intuitions and from there develop and refine theory Corpus Linguistics can offer a meticulous methodology based on mathematics and statistics while Pragmatics is characterized by its efforts to interpret intended meaning in real language This yearbook offers a platform to scholars who combine both research methodologies to present rigorous and interdisciplinary findings about language in real use

Creating Entrepreneurial Space David Higgins,Paul Jones,Pauric McGowan,2019-06-17 The book draws upon new theoretical perspectives and approaches as a means of illustrating the inherently social and contextualized nature of entrepreneurial practice and advance the manner in which we critically think about and engage with various aspects of entrepreneurial practice and development

**Encoding and Navigating Linguistic Representations in Memory** Claudia Felser,Colin Phillips,Matthew Wagers,2017-03-22 Successful speaking and understanding requires mechanisms for reliably encoding structured linguistic representations in memory and for effectively accessing information in those representations later Studying the time course of real time linguistic dependency formation provides a valuable tool for uncovering the cognitive and neural basis of these mechanisms This volume draws together multiple perspectives on encoding and navigating structured linguistic representations to highlight important empirical insights and to identify key priorities for new research in this area

Digital Lifeline? Carleen Maitland,2018-05-04 Interdisciplinary perspectives on the role of new information technologies including mobile phones wireless networks and biometric identification in the global refugee crisis Today s global refugee crisis has mobilized humanitarian efforts to help those fleeing persecution and armed conflict at all stages of their journey Aid organizations are increasingly employing new information technologies in their mission taking advantage of proliferating mobile phones remote sensors wireless networks and biometric identification systems Digital Lifeline examines the use of these technological innovations by the humanitarian community exploring operations and systems that range from forecasting refugee flows to providing cellular and Internet connectivity to displaced persons The contributors from disciplines as diverse as international law and computer science offer a variety of perspectives on forced migration technical development and user behavior drawing on field work in countries including Jordan Lebanon Rwanda Germany Greece the United States and Canada The chapters consider such topics as the use of information technology in refugee status determination ethical and legal issues surrounding biometric technologies information technology within organizational hierarchies the use of technology by refugees access issues in refugee camps the scalability and sustainability of information technology innovations in humanitarian work geographic information systems and spatial thinking and the use of big data analytic techniques Finally the book identifies policy research directions develops a unified

Values and Virtues in Higher Education Research centres on practitioners studying and researching their practices in higher education settings in order to improve those practices for the benefit of others and themselves Making research public is a key aspect of ensuring the quality of educational research and educational practices Values and Virtues in Higher Education Research raises questions and develops conversations about why higher education practitioners should study and improve their work how this may be done and what might be some of the benefits of doing so What we do as practitioners is influenced by and linked with what we value what we believe is good Improving practices therefore involves becoming aware of and interrogating the values that enter into and inform those practices a study of practices becomes a study of the relationships between the practices in question and their values base From an international group of contributors in this growing field this book provides strong theoretical resources and case study material that shows how this transformation may be achieved including topics such as Theorising practices to show personal and organisational accountability Developing inter professional and inter disciplinary dialogues for social transformation Establishing communities of inquiry in higher education and other workplace settings Reconceptualising professional education as research informed practice Locating educational theory in the real world for human and environmental wellbeing Showing the evolution of theory through critical engagement this text will be a valuable companion for lecturers students and professional developers in higher education This book will form core reading for those who are interested in engaging in practice based research and as additional reading for those whose aim is to broaden their thinking in relation to the role of values and virtues in educational research Jean McNiff is an independent researcher and writer Professor of Educational Research at York St John University and Visiting Professor at Oslo and Akershus University College Beijing Normal University and Ningxia Teachers University She is also the author of key texts Action Research Principles and Practice You and Your Action Research Project and Writing Up Your Action Research Project

**ECRM2015-Proceedings of the 14th European Conference on Research Methods 2015** Dr Vincent Cassar, Dr Frank Bezzina, 2015-06-01 Complete proceedings of the 14th European Conference on Research Methodology for Business and Management Studies Valtetta Malta Published by Academic Conferences and Publishing International      *Toward Robotic Socially Believable Behaving Systems - Volume II* Anna Esposito, Lakhmi C. Jain, 2016-03-29

This volume presents a collection of research studies on sophisticated and functional computational instruments able to recognize process and store relevant situated interactional signals as well as interact with people displaying reactions under conditions of limited time that show abilities of appropriately sensing and understanding environmental changes producing suitable autonomous and adaptable responses to various social situations These social robotic autonomous systems will

improve the quality of life of their end users while assisting them on several needs ranging from educational settings health care assistance communicative disorders and any disorder impairing either their physical cognitive or social functional activities The multidisciplinary themes presented in the volume will be interesting for experts and students coming from different research fields and with different knowledge and backgrounds The research reported is particularly relevant for academic centers and Research Development Institutions

*Physico-Chemical Control of Cell Function* Cesare Gargioli, Giancarlo Forte, Alberto Rainer, 2019-10-17 Extracellular Matrix ECM has been considered for a long time merely a scaffold sustaining cell and tissue function Despite this simplistic view shared by many nowadays ECM and their mechanic physical and chemical characteristic acquired a progressive larger role actively regulating cell life survival proliferation gene expression and differentiation The interplay between cells and the ECM is continuously controlled at the cell level in a dynamic way While cells synthesize the raw components of the ECM this in turn impacts on cell function by providing chemical topographical and mechanical hints Such stimuli have been proven to control several aspects of cell function including survival proliferation differentiation and migration The molecular pathways activated by cells in response to the physical cues arising from the ECM are being disclosed and thus the possibility to control cell function through materials design is becoming more realistic Current in vitro protocols relying in 2D cell culture system entail reductionist approaches to the complexity of cell ECM interaction and result in cells rapidly losing their distinctive functions in culture Understanding and replicating the 3D microenvironmental cues affecting cell function appears as a mandatory requirement for the development of next generation biomaterials as well as for the establishment of more physiologically relevant and predictive in vitro models of diseases Such an effort will require a multidisciplinary approach at the convergence of biophysics biology nanotechnology and bioengineering

**The Frontlines of Artificial Intelligence Ethics** Andrew J. Hampton, Jeanine A. DeFalco, 2022-06-30 This foundational text examines the intersection of AI psychology and ethics laying the groundwork for the importance of ethical considerations in the design and implementation of technologically supported education decision support and leadership training AI already affects our lives profoundly in ways both mundane and sensational obvious and opaque Much academic and industrial effort has considered the implications of this AI revolution from technical and economic perspectives but the more personal humanistic impact of these changes has often been relegated to anecdotal evidence in service to a broader frame of reference Offering a unique perspective on the emerging social relationships between people and AI agents and systems Hampton and DeFalco present cutting edge research from leading academics professionals and policy standards advocates on the psychological impact of the AI revolution Structured into three parts the book explores the history of data science technology in education and combatting machine learning bias as well as future directions for the emerging field bringing the research into the active consideration of those in positions of authority Exploring how AI can support expert creative and ethical decision making in both people and virtual human agents this is

essential reading for students researchers and professionals in AI psychology ethics engineering education and leadership particularly military leadership      **Surviving and Thriving in the Secondary School** Susan Capel, Julia Lawrence, Marilyn Leask, Sarah Younie, 2019-10-01 With an emphasis on developing a reflective resilient approach that will ensure both effective teaching and teacher well being **Surviving and Thriving in the Secondary School** covers key issues that may be encountered in the day to day practice of teaching in the secondary school With evidence based practice at the forefront this volume allows new teachers to avoid common pitfalls of teaching and it will help provide a new found confidence within the classroom Including a wide range of tasks that will help guide and demonstrate successful practice this book covers topics and concerns such as Building relationships within teaching Managing and responding to change Becoming an inclusive educator Working to improve classroom climate and pupil behaviour Assessment homework and marking Inclusion of digital technologies and ICT Looking after yourself and your professional development **Surviving and Thriving in the Secondary School** can be utilised to help support and provide ideas on specific areas of concern or it can be read as a continuing professional development CPD companion allowing practice to be developed and refined Written by world renown experts in the field this volume provides support for all newly qualified teachers and is an essential resource for the first year of teaching and beyond      **Integration of Development, Physiology and Responses to Environmental Change in Aquatic Invertebrates** Zhiguo Dong, Vengatesen Thiyagarajan, Zulin Zhang, Xiaodong Zheng, Tao Zhang, 2023-06-01      **The Scale-Up Effect in Early Childhood and Public Policy** John List, Dana Suskind, Lauren Supplee, 2021-05-26 This critical volume combines theoretical and empirical work across disciplines to explore what threatens scalability and what enables it in the early childhood field Authors and editors provide specific recommendations to help professionals refine and apply the science of scaling in their programs research and decision making Written by leading experts in early childhood economics psychology public health philanthropy and more chapters and commentaries shine light on how to effectively use experimental insights for policy purposes The result is a comprehensive and forward thinking guide to the challenges and possibilities of effective scaling in early childhood and beyond Essential reading for researchers practitioners funders and policy makers alike this book raises vital questions and provides a vision for the long term journey to scalable evidence
