Brain Science under the Swastika Lawrence A. Zeidman, 2020-05-25 Eighty years ago the largest genocide ever occurred in Nazi Europe This began with the mass extermination of patients with neurologic and psychiatric disorders that Hitler's regime considered useless eaters The neuropsychiatric profession was systematically cleansed beginning in 1933 but racism and eugenics had infiltrated the specialty long before that With the installation of Nazi principled neuroscientists mass forced

sterilization was enacted which transitioned to patient murder by the start of World War II But the murder of roughly 275 000 patients was not enough The patients brains were stored and used in scientific publications both during and long after the war Also patients themselves were used for unethical experiments Relatively few neuroscientists resisted the Nazis with some success in the occupied countries Most neuroscientists involved in unethical actions continued their careers unscathed after the war Few answered for their actions and few repented The legacy of such a depraved era in the history of neuroscience and medical ethics is that codes now exist to protect patients and research subjects But this protection is possibly subject to political extremes and individual neuroscientists can only protect patients and colleagues if they understand the dangers of a utilitarian unethical and uncompassionate mindset Brain Science under the Swastika is the only comprehensive and scholarly published work regarding the ethical and professional abuses of neuroscientists during the Nazi era The author has crafted a scathing tour de force exploring the extremes of ethical abuse but also ways that this can be resisted and hopefully prevented by future generations of neuroscientists and physicians

Matriarch and World War Iii

Daisy Snow,2019-04-06 The author was one of those people in Melbourne who knew about 9 11 before it happened The terrorist squad of the police force harassed her in the late 1990 s when the government began writing up its intended terrorist laws The poor woman was nearly shot dead as a female terrorist just after the Bali bombing A United Nations meeting convened on the other side of the brick wall where she parked her truck Matriarch and World War III Internal State Terrorism in Australia was therefore compulsory Just who masterminded 9 11 doesn t really matter anymore The 21st Century invasions of Islamic countries and the suicide bombings and carnage in the world demand an explanation In the 1970 s the United Nations told the world to reduce population growth Islam and the Catholic Church refused The problem is that Islamic countries can only export their overpopulation in an attempt to reduce the humanitarian crises that arise from too many people demanding the necessities of life Jihad for women in Islam means excess children and refugee status When invaded the mujahedeen volunteer to fight to the death the others flee as refugees to consolidate their numbers elsewhere the traditional strategy of military Islam Representative democracy has a weakness the numbers win the vote The long term cold war military strategies of Islam therefore go beyond parliamentary consideration The hullabaloo about the humanitarian crisis in the world and the demands of Islamic refugees overshadow the targeting of the unwanted in Australia The naive and the uninformed don t know Secrecy Provisions prevail World War III is a collection of civil wars all around the world
