This financial analysis seeks to determine the suitability of Microsoft Corporation as a publicly-traded company as a potential business partner to PacificCoast Technology. This will be achieved by carrying out an in-depth analysis of Microsoft's financial statements including the statement of cash flows, Income statement, and statement of financial position by computing relevant financial ratios. This will encompass trend analysis and industry average ratio analyses on the market value, turnover, profitability, and both long- and short-term liquidity. Despite existing in markets with very high competition, Microsoft exhibits a steady rise in terms of new trends and technologies as well as financial growth. Microsoft's long experience and growth in the technology industry and based on the financial analyses of their financial statements, it is my conclusion that this would be a perfect corporate partner to buy out PacificCoast.
