Resolving International Conflict Isabel Bramsen,Poul Poder,Ole Waever,2019-05-03 Resolving International Conflict

rethinks the dynamics of conflict escalation and continuation by engaging with research from the wide range of subfields in this area. The book suggests a new framework for understanding conflict as a particular form of situation interaction and tension. It shows how conflicts are shaped by varied dynamics relating to emotion, securitization, incentives, digital technology, and violence, even attempts at monitoring, resolving, or remembering conflicts may end up contributing to their escalation or continuation. Split into two sections, the first part focuses on the question of why and how conflicts escalate, while the second part analyses the continuation of conflict. The book features several case studies of conflict escalation and continuation in Bahrain, Israel, Palestine, South Sudan, Northern Ireland, and most prominently the case of the Syrian uprising and subsequent civil war. Throughout the book and in particular in the conclusion, the consequences for conflict transformation are discussed. This work will be of much interest to students of conflict resolution, peace studies, war and conflict studies, security studies, and international relations in general. *Chilean Salmon* Teodoro Wigodski, 2024-11-28 Chilean Salmon Shared
