United States Marine Corps,2015-02-16 All unclassified Army and Marine Corps manuals and correspondence courses are products of the US Federal Government They are NOT subject to copyright and can be freely copied and redistributed The Marine Corps Institute MCI develops correspondence courses for Marines with all kinds of Military Occupational Specialties MOS on all manner of subjects This is one of those courses The print is relatively small because that is the way it was in the original and this is an exact reproduction Also as a tribute to the individual and a touch of reality you will notice that the editorial pencil marks and underlined passages that were put there by the Marine that took this course They were intentionally left in the reproduction This version of the course was authorized in September of 1984 With the exception the development of Infrared technology it contains information and techniques that have changed very little since the Vietnam war These battle proven tactics are as valid today as they were in Quang Nam province in 1968 They will maintain their validity during the upcoming inevitable event of total economic political and social collapse Yours for freedom in our lifetimes jtl 419

Marine Corps Doctrine Publication MCDP 7 Learning February 2020 United States Government Us Marine Corps,2020-05-14 The purpose of this United States Marine Corps USMC manual Marine Corps Doctrine Publication 7 Learning February 2020 is to describe the Marine Corps learning philosophy and explain why learning is critically important to the profession of arms While many of the concepts in this publication have been passed on by Marine leaders throughout our history this publication seeks to formalize them and provide aspirational goals Learning is an institutional priority and a professional expectation for all Marines This mentality is key to the Marine Corps becoming a more effective learning organization The most important factor in this philosophy is the importance of continuous learning throughout our careers for warfighting Continuous learning is essential to maneuver warfare because it enables Marines to quickly recognize changing conditions in the battlespace adapt and make timely decisions against a thinking enemy These skills required in war must be learned developed and honed over time if neglected they quickly atrophy Marines leverage the art and science of learning technologies and learning environments that reflect the changing operational environment to tailor learning and provide each other with constructive feedback Leaders hold Marines to high professional standards of performance conduct and discipline to include learning As Marines rise in rank and position continuous learning and developing our professional skills are a professional expectation We must make the most of every learning opportunity fostering our subordinates learning while continuing our own Continuous learning is important to Marines because of the fundamental nature of war and its ever changing character The nature of war carries a combination of fear uncertainty ambiguity chance horror and above all friction that Marines must prepare to counter Marines must seek out education and training opportunities that

simulate these conditions We must train how we fight As Marines we must understand how important learning is and be committed to the principles laid out in this publication Our professional responsibility as Marines is to engage in continuous learning so that we may best support our fellow Marines our Corps and our Nation Marine Corps Publications Combined: USMC Battle Skills Test Study Materials , Mission Effective 1 January 2018 the total force will conduct the training and evaluation of 30 tasks designated in the BST program in order to sustain skills common for all Marines Execution Commanders Intent The BST Program provides a structured approach for the service to ensure all Marines sustain proficiency in 30 of the 178 common skills taught during entry level training The program will emphasize training using a leader led face to face approach Small unit leaders noncommissioned officers and above will be the primary trainers and evaluators Marines private through general will annually demonstrate their mastery of these common skills Commanders will have flexibility in their approach to training and evaluating their units Concept of Operations The BST Program effectively begins 1 January 2018 as a calendar year requirement However commanders can immediately start incorporating BST training into their unit training plans and are encouraged to begin preparing their small unit leaders to conduct and evaluate the 30 common skills Training support packages TSP and associated performance evaluation checklists for each of the 30 BST skills are online to assist small unit leaders The TSPs provide small unit leaders the required information performance steps and evaluation criteria to facilitate leader led training The training is designed to be conducted in any environment from garrison to field on the flight line in the motor pool maintenance bay or on ship Units may find that many of these skills are already embedded in their unit training plan thereby minimizing the impact of the BST Program Commanders determine how and when the training and evaluation will occur throughout the calendar year Options range from training and evaluation over the course of a year to training throughout the year and then consolidating evaluation into a culminating event to foster esprit de corps For example training and evaluation can be combined in a teach it test it method where Marines are evaluated immediately after the training is conducted or Marines can be trained and then evaluated on a later date All Marines have previously been taught these skills during entry level training thus the expectation is that Marines have the ability to easily refresh and sustain these skills However if unable to pass Marines will have multiple opportunities to remediate Commanders have the entire calendar year to ensure their Marines train and pass all 30 of the skills and will ensure that training is recorded The 30 skills of BST Program are Basic Infantry skills Conduct observation Defend a position Describe the use of deadly force Employ a map and compass Handle detainees Identify anomalies Perform actions with a service rifle Perform immediate action upon contact with the enemy Perform weapons handling procedures with a service rifle Search an individual Stand a sentry post Visually identify indicators of improvised explosive devices Communications Communicate using hand and arm signals Operate a VHF radio Submit a message First Aid Apply a tourniquet Describe phases of tactical combat casualty care Treat a cold weather injury Treat a heat injury History Identify significant events in

Operations (McDp 1-0) United States Marine Corps,Marine Corps U. S. Marine Corps,2006-08-01 Marine Corps Doctrinal Publication MCDP 1 0 is the first Marine Corps Operations doctrinal publication written for the Marine component and the Marine air ground task force MAGTF It represents how our warfighting philosophy is codified in operational terms MCDP 1 0 is intentionally written broadly to capture the employment of Marine components and the MAGTF across the range of military operations The supporting tactics techniques and procedures TTP are contained in our warfighting and reference publications **21st Century U.S. Military Manuals** Department of Defense,U. S. Military,U. S. Marine Corps,2017-09-26

This U S Marine Corps doctrinal manual covers command and control It describes a theory and philosophy of command and control for the U S Marine Corps Put very simply the intent is to describe how we can reach effective military decisions and implement effective military actions faster than an adversary in any conflict setting on any scale In so doing this publication provides a framework for all Marines for the development and exercise of effective command and control in peace in crisis or in war This publication represents a firm commitment by the Marine Corps to a bold even fundamental shift in the way we will view and deal with the dynamic challenges of command and control in the information age The Marine Corps view of command and control is based on our common understanding of the nature of war and on our warfighting philosophy as described in Marine Corps Doctrinal Publication 1 Warfighting It takes into account both the timeless features of war as we understand them and the implications of the ongoing information explosion that is a consequence of modern technology

Since war is fundamentally a clash between independent hostile wills our doctrine for command and control accounts for animate enemies actively interfering with our plans and actions to further their own aims Since we recognize the turbulent nature of war our doctrine provides for fast flexible and decisive action in a complex environment characterized by friction uncertainty fluidity and rapid change Since we recognize that equipment is but a means to an end and not the end itself our doctrine is independent of any particular technology Taking a broad view that accounts first for the human factors central in war this doctrine provides a proper framework for designing appraising and deploying hardware as well as other components of command and control support
