Graeme Drummond, John Ensor

Marketing Management 3rd Edn A Relationship Approach:

Marketing Management Svend Hollensen, 2014-10-16 Links relationship marketing to the traditional market planning models that are used by most marketers today. As globalisation progresses the need for creating and maintaining off line and on line relationships with the company's customers, suppliers, stakeholders and personnel has become increasingly vital in today's business environment. Marketing Management, 3rd Edition Kumar Arun & Meenakshi N., In today's socially networked and highly competitive world it is imperative that marketers are always truthful because customers eventually find out if they have been misled. This can lead to their angst with the company going viral thereby destroying the company's reputation. Marketing Management advocates marketing based on absolute truth. Also brand image is sensitive to market sentiments. Brands can be in danger; one wrong product or one shoddy campaign can destroy a brand built over years. Companies must align everything that they do with the core spirit of their brands. Further when everything seems to go digital it is important that marketers keep in mind that customers are primarily interested in their products/services. The book advocates that superior products and services will always be central to marketing. Key Features: Best Practices Researched, implemented and result driven practices taken from leading companies across diverse industries throughout the world. Marketers can adopt these practices to elevate individual and organizational performance. Corporate Insights: Examples of marketing concepts being implemented by well known Indian companies and brands. Latest moves of companies and brands as they cope with competition and environment. Case Studies: A brief case study after each chapter focusing on specific issues dealt within the chapter. Specialized Questions: Questions meant to make students ponder upon various aspects of marketing and challenge the existing paradigms. *Marketing: A Relationship Perspective (Second Edition)* Svend Hollensen, Marc Oliver Opresnik, 2019-03-15. *Marketing: A Relationship Perspective* is back for a second edition and continues to set a benchmark for achievement in introductory marketing courses across Europe. It is a comprehensive, broad based and challenging basic marketing text which describes and analyzes the basic concepts and strategic role of marketing and its practical application in managerial decision making. It integrates the new relationship approach into the traditional process of developing effective marketing plans. The book's structure fits to the marketing planning process of a company. Consequently the book looks at the marketing management process from the perspective of both relational and transactional approach, suggesting that a company should in any case pursue an integrative and situational marketing management approach. Svend Hollensen's and Marc Opresnik's holistic approach covers both principles and practices; is drawn in equal measure from research and application and is an ideal text for students, researchers and practitioners alike. PowerPoint slides are available for all instructors who adopt this book as a course text. The Marketing Framework Poul K. Faarup, 2010.
