Turning Pointe Chloe Angyal,2021-05-04 A reckoning with one of our most beloved art forms whose past and present are shaped by gender racial and class inequities and a look inside the fight for its future Every day in dance studios all across America legions of little children line up at the barre to take ballet class This time in the studio shapes their lives instilling lessons about gender power bodies and their place in the world both in and outside of dance In Turning Pointe journalist Chloe Angyal captures the intense love for ballet that so many dancers feel while also grappling with its devastating shortcomings the power imbalance of an art form performed mostly by women but dominated by men the impossible standards of beauty and thinness and the racism that keeps so many people of color out of ballet As the rigid traditions of ballet grow increasingly out of step with the modern world a new generation of dancers is confronting these issues head on in the studio and on stage For ballet to survive the twenty first century and forge a path into a more socially just future this reckoning is essential **Catalogue of the Educational Division of the South Kensington Museum.
