Make you cognize how difficult is to go an spaceman? The astronaut calling includes contact with the highest engineerings, known to mankind, the most daring scientific developments and last but non least, a alone experience and epinephrine. To use for NASA, for illustration, you must make full in the appropriate signifier, which is located on the site of NASA. If you meet the conditions will probably be invited to the one hebdomad interview for different types of trials. If indexs are sufficient good you will voyage in the box "candidate Cosmonaut" . But that is my dream work, so I am prepared to make all the preparation and the immense competition. Every two old ages, NASA announced a list of about 100 work forces and adult females, selected from 1000s of campaigners. If I am one of these, I will be lucky – to follow two old ages of difficult work and preparation in Space Center Houston. During these two old ages I'll have classs in basic scientific disciplines – mathematics, uranology, natural philosophies and geology.

Of class to go an astronaut I should hold a good physical preparation for endurance in different conditions, deep diving, simulation of micro-gravity, drills in environments with high and low force per unit area, working with infinite suit. I will necessitate to travel and a particular trial for swimmers: three lengths in the 25 metre swimming pool in full equipment. At the terminal of the two old ages developing I will hold the opportunity to be selected for a existent infinite mission and that will be the ground of all those readyings. I truly hope to acquire the aid that I need from Masterclass and acquire the opportunity to have adept tuition from a professional spaceman. So if you are inquiring me why I want to be an astronaut – there's merely one ground: I don't want to imbibe recycled H<sub>2</sub>O from my ain piss and the piss of other crew members.

*Modern Essays* Harry Morgan Ayres, 2019-03-04 Excerpt This vigorous survey of American letters is the first chapter of John Macy's admirable volume *The Spirit of American Literature* published in 1913 a book shrewd penetrating and salty which has unfortunately never reached one tenth of the market *The World Unvisited* William Power, 1922 *The Essay Film* Timothy Corrigan, 2011-12-01 Why have certain kinds of documentary and non narrative films emerged as the most interesting exciting and provocative movies made in the last twenty years Ranging from the films of Ross McElwee *Bright Leaves* and Agnès Varda *The Gleaners and I* to those of Abbas Kiarostami *Close Up* and Ari Folman *Waltz with Bashir* such films have intrigued viewers who at the same time have struggled to categorize them Sometimes described as personal documentaries or diary films these eclectic works are rather best understood as cinematic variations on the essay So argues Tim Corrigan in this stimulating and necessary new book Since Michel de Montaigne essays have been seen as a lively literary category and yet despite the work of pioneers like Chris Marker seldom discussed as a cinematic tradition *The Essay Film* offering a thoughtful account of the long rapport between literature and film as well as novel interpretations and theoretical models provides the ideas that will change this

books of reference or from slight observation Beyond all this mechanical work lies a field of throbbing personal life of joyous reactions on all the myriads of interests that lie close at hand of meditations on the wonders of plant and animal life of humorous or philosophic comments on human nature and of all manner of vague dreams and aspirations aroused by Such sights as youthful poets dream On summer eves by haunted stream Without the slightest question it is the duty of the school and of the teacher in particular to lead pupils to appreciate honesty and originality in unapplied unpragmatic self expression and to show pupils how they themselves may gain the very real pleasure of putting down on paper permanent records of their own intimate thinking Joseph Addison s The Sir Roger de Coverley Papers and Washington Irving s Sketch Book have for many years made valiant but unsuccessful efforts to fill the places that should be filled by more modern representatives of the essay Macaulay s Essay on Johnson is a biographical article for an encyclopedia his essays on Clive and on Hastings are polemics and Carlyle s Essay on Burns is a critical disquisition With the exception of The Sir Roger de Coverley Papers all these so called essays are of considerable length and are unfitted to serve as the best examples of the essay form for the essay like the lyric demands brevity it is after all only a quick flash of self revelation not a sustained effort Then again who would wish to learn to write like Addison like Washington Irving like Macaulay or like Carlyle Those great writers couched their thoughts in the language fashions of their days just as they clothed their bodies in the garments of their times To imitate either their style of expression or their costumes would be to make one s self ridiculous or to take part in a species of masquerade The extremely Latinized vocabulary of 1711 or the resonant periods and marked antitheses of 1850 are as old fashioned to day as are the once highly respected periwigs great coats and silver shoe buckles of the past The thoughts of yesterday are not the thoughts of to day There is in serious reality such a thing as an old fashioned point of view With all due reverence for the past the best teachers of to day believe that it is just as necessary for students to use present day methods of expression and to cultivate present day interests as it is to take advantage of the railroad the telegraph the telephone the automobile and the thousand other mechanical contrivances that aid life to day but which were unknown in 1711 or in 1850
