Embracing Diversity Maureen Miner, Kirsty Beilharz, 2023-07-01 Christian schools and colleges that include spiritual formation and Christian maturity within their mission are facing challenges The challenge of being a Christian college within a secular society is well recognized There are intellectual clashes of secular versus religious worldviews to be negotiated and clashes of social imaginaries where habitual ways of responding come into conflict These challenges are difficult enough for staff of a Christian college when most students have a Christian background and there may be a common language and assumptions Even more difficult are the challenges faced by Christian staff of a Christian college when most students identify with non Christian religions What does a college's mission of forming mature Christians mean when students are largely Muslim Hindu Buddhist Sikh or other non Christian faiths Should staff modify curricula to reduce cognitive clashes Should teaching practices be changed to reduce the dissonance of different social imaginaries How can staff draw from Christian values of tolerance and respect to support non Christian students in their formation of values and ethics while still respecting diversity This volume draws together the work of scholars and researchers who have pondered the nature purpose and means of formation It offers an analysis of the scope context and methods of formation of mature people without denying or downplaying the difficulties of formation It offers hope that people who are mature in all areas of life including the spiritual domain can be formed and urges educators to encompass all domains in their formative work *Role of Leadership in Facilitating Healing and Renewal in Times of Organizational Trauma and Change* Byrd-Poller, Lynda, Farmer, Jennifer L., Ford, Valerie, 2021-06-25 Organizational trauma theory endeavors to examine the psychological and physical effects of trauma on individuals and groups within an organization Individual trauma the individual mental and emotional disruptions that affect the well being of self often contributes to organizational trauma Or sometimes the disruptions are external and caused by societal economic or political changes Recent traumatic events such as the COVID 19 pandemic and racial tensions stemming from social injustices present even greater challenges for organizations as leaders seek to facilitate healing restoration and renewal Organizational trauma is currently playing out in our organizations and organizational scholars leaders and managers are looking for ways to mitigate this trauma without having explicit knowledge or understanding of how to deal with it Despite the increasing need to better understand organizational trauma and how to address it this body of research has not played a prominent role in mainstream organization and management theory *Role of Leadership in Facilitating Healing and Renewal in Times of Organizational Trauma and Change* examines the importance of dealing with trauma in organizations and related topics of interest The chapters highlight global perspectives and present new and significant information and observations about organizational trauma and offer insights derived from a solidly and sufficiently broad knowledge base of theory research and practice This book will also grant a basis of understanding trauma its antecedents and outcomes as well as how it can be mitigated and will provide information and insights regarding
