The main problem is that Nigerian leaders seem to have largely lost control over the state and its policies which appear to have been captured by the dominant classes and groupslocal and international Nigerias main problem is therefore a structural one Nonetheless the book concludes as the security economic political and social crises intensifyNigerian leaders even if it is simply for self preservation will be forced by the objective conditions to move against the interests of these dominant classes and groups It is only then that Nigeria can realistically be restored to the possibility of becoming an African Giant Gender, Social Change and Spiritual Power Jane E. Soothill, 2007-03-31 Charismatic Christianity is the most recent and fastest growing expression of Pentecostal religion in Sub Saharan Africa In Ghana's capital Accra the charismatic churches dominate the religious scene This book focuses on the gender discourses of Ghana's new churches and considers charismatic perspectives on womanhood manhood marriage and family life Offering a fresh perspective on the organisational structures of the charismatic churches this study looks at the leadership roles of female pastors and pastors wives and draws attention to the links between female leaders and spiritual power By highlighting the importance of spiritual power in interpreting gendered social change the book sheds new light on the socio cultural role of Ghana's new churches National Security, Democracy, & Good Governance in **Post-Military Rule Nigeria, Volume One** Dr. Dan Mou, 2016-12-30 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the seventy one percent 71% of Nigerias population still living below poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance

and inclusive growth this country will witness the worst civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use
