

Ethical Decision Making Paper

In this paper I will examine the relationship of a school psychologist and the relationship of his client and how boundaries were crossed when the school psychologist entered a sexual relationship with his minor client. To complete this assignment, the ethical dilemma will be discussed, the 14 steps in the ethical decision making process will be applied, further I will briefly discuss the importance of ethical decision making in professional psychology.

Ethical Dilemma

A psychologist working in the Baltimore City Public School System with middle school students in the Promoting Respect Integrity Discipline Education (PRIDE) Program starts to develop sexual feelings toward one of the young male student's. At first the psychologist could resist his temptations for wanting to engage in sexual activities with the young man, but the more time he spent with the student the stronger his desires became. The psychologist finds ways to meet with the student alone and he builds a trusting relationship with him and his mother.

He accomplishes this by offering to be a mentor/big brother to the student because the mother is a single parent. The mother was appreciative that the psychologist was spending time with her son, by helping him with his homework, taking him to the movies, and helping to purchase school supplies. The psychologist convinced the mother to allow him to give the boy a cell phone claiming that the boy and his mother could stay in contact because the mother worked overtime, and the child would be home alone.

The mother agreed to this, not thinking there was anything to the relationship. The psychologist continues to buy his client gifts and take him out to dinner and to the movies. The school psychologist finds that the boy loves dogs and asks the boy if he wanted a job after-school and on the weekends walking his dogs, he convinced the boy by taking the job they could spend more time together.

The boy tells his mother about the job and the mother agrees to this and finally the psychologist asks the mother if he could take the boy on a weekend camping trip, which the mother agrees. It was on the camping trip the psychologist expresses his feelings toward the boy and the boy shares his feelings toward the psychologist and he and the boy engage in sexual relations. The sexual relationship continues the rest of the school year and throughout the summer.

When the new school year begins the psychologist is still engaging in sexual relations with the student, begins to develop feelings for another student and starts spending less time with the first young man, as a result of this the boy starts acting out in class, not doing his homework, failing his test, fighting with the other students, and he becomes aggressive toward the psychologist. As a result of the boy's acting out behaviors a parent conference is scheduled, the boy reveals that he and the psychologist have been engaging in sexual relatio

Proceedings of the 1999 Academy of Marketing Science (AMS) Annual Conference Charles H. Noble, 2015-02-02
This volume includes the full proceedings from the 1999 Academy of Marketing Science AMS Annual Conference held in Coral Gables Florida. The research and presentations contained in this volume cover many aspects of marketing science including marketing strategy, consumer behaviour, international marketing, advertising, marketing education, among others. Founded in 1971, the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory, research, and practice. Among its services to members and the community at large, the Academy offers conferences, congresses, and symposia that attract delegates from around the world. Presentations from these events are published in this Proceedings series, which offers a comprehensive archive of volumes reflecting the evolution of the field. Volumes deliver cutting edge research and insights complementing the Academy's flagship journals, the Journal of the Academy of Marketing Science (JAMS) and AMS Review. Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science. **From the Universities to the Marketplace: The Business Ethics Journey** Marilyn Fleckenstein, Mary Maury, Laura Pincus, Pat Primeaux, 2012-12-06. From the Universities to the Marketplace: The Business Ethics Journey arose from the awareness of the slow progression of academic theory into market practice. The contributions in this volume reflect a diversity of disciplines and approaches to research, study, and teaching business ethics, such as philosophy, accounting, theology, marketing, management, and finance. The contributors represent a wide variety of professional and geographical backgrounds, creating a fruitful discussion of a large number of issues related to implementation and measurement of business ethics and feedback from all parties involved. ORGANIZATION, PURPOSE, AND VALUES Sunita Singh Sengupta, P. Jyothi, Suresh Kalagnanam, B. Charumathi, 2024-07-08. People, employees, and investors are the strength of the organizations, and the leader who integrates this understanding creates an environment where people can use their full potential, feel appreciated, and grow in the process. Organizations need to promote leadership that is able to nurture the spirit of each employee in order to create happy and harmonious workplaces. Such a nurturing and liberating environment will trigger social energy, which is not only a sufficient condition for innovation but the precondition for creating collective pride. **Multidisciplinary Research in Arts, Science & Commerce (Volume-22)** Chief Editor- Biplab Auddya, Editor- Dr. K. The massive growth of the Internet has made an enormous amount of information available to us. However, it is becoming very difficult for users to acquire an applicable one. Therefore, some techniques such as information filtering have been introduced to address this issue. Recommender systems filter information that is useful to a user from a large amount of information. Many e-commerce sites use recommender systems.

to filter specific information that users want out of an overload of information 2 For example Amazon.com is a good example of the success of recommender systems 1 Over the past several years a considerable amount of research has been conducted on recommendation systems In general the usefulness of the recommendation is measured based on its accuracy 3 Although a high recommendation accuracy can indicate a user's favorite items there is a fault in that only similar items will be recommended Several studies have reported that users might not be satisfied with a recommendation even though it exhibits high recommendation accuracy 4 For this reason we consider that a recommendation having only accuracy is satisfactory The serendipity of a recommendation is an important element when considering a user's long term profits A recommendation that brings serendipity to users would solve the problem of user weariness and would lead to exploitation of users' tastes The viewpoint of the diversity of the recommendation as well as its accuracy should be required for future recommender systems

Physicians at War Fritz Allhoff, 2008-03-22 This paper offers a brief examination of ethical health issues arising from military operations and outlines which if any of these ethical health issues apply to current Australian Defence Force ADF military operations The transparency of military operations provided through real time global media reporting and the Internet has raised public awareness of incidents that can be viewed broadly as ethical issues or dilemmas While many of these issues are not new it is the changing context of post cold war military operations and scale and demand of humanitarian operations that places new requirements on how the ADF best addresses these potential issues before they become critical incidents In identifying potential ethical issues arising from military health operations it is recognized that military health personnel operate within a command and control organizational structure and associated culture It is also recognized that the complexity of the issues and the environment within which military health personnel are expected to operate will raise ethical health issues not likely to be encountered to the same degree by those health practitioners operating in the average suburban practice or hospital except when health personnel are confronted with large scale emergencies such as those encountered with recent terrorist attacks and massacres
