Photographic Composition, Creativity, and Personal Style Alain Briot,2010-12-14 Alain Briot states that The personality
of the photographer must be present in the image for an artistic photograph to have value And in this book he sets out to
teach the things that are essential in achieving this goal Following his successful first book Mastering Landscape
Photography Briot goes beyond the conventional rules of composition and takes on a fresh new approach to teaching the art
of photography Based upon his personal experiences as an artist teacher and photographer he opens new doors to the reader
doors leading to new ways of seeing and composing images Briot approaches fine art photography as being a combination of
art and technique In this new book he addresses both of these by presenting artistic and technical information On the artistic
side Briot introduces artistic concepts that have been rarely if ever associated with photography On the technical side he
presents numerous tools that can help you learn how to create better photographs and provides technical solutions to
common photographic problems The author practices photography as a fine art What matters most to him is how
photography can be used to express feelings and emotions For Briot a good photograph must be both artistically inspired and
technically excellent To have just one of these two elements is not enough for a fine art photograph to be successful Topics
include How to compose with color with black and white and with light Why you need to consider your audience while
composing a photograph Recreate the emotions you felt when you captured your photographs How the elements of color hue
contrast and saturation work in your images How to control the elements that have a visual effect in your photographs How
to draw upon your personal way of seeing and then share your vision How to diagnose image maladies and apply the proper
remedies How to define a color palette for a specific photograph How to use compositional elements to develop a personal
style Forword by Tony Sweet **Boating** ,2002-12 *Boating* ,2006-05 *Backpacker* ,2001-09 Backpacker brings the
