

ARGUMENTATIVE PAPER ON THE MORALITY OF EUTHANASIA

After reading the passage on The Morality of Euthanasia, with somewhat of a concurring opinion and also with an opinion outside of the author's argument about, "the principle of Utility" which says that any action or social policy is morally right if it serves to increase the amount of happiness in the world or to decrease the amount of misery. Conversely, an action or social policy is morally wrong if it serves to decrease happiness or to increase misery and this can be found in page 254 in the online version of the textbook.

In this passage of the author disagrees and says this principle of utility is an inadequate guide for determining what's right and wrong. In this paper, I will argue that the principle is quite solid for determining what's wrong and right.

One of his arguments he presented against the principle he said the principle was wrong because happiness and reduction of misery were not the two most important things morally and they are other values and he mention Freedom, Justice and Respect for the right of others. He also goes further to give an illustration saying if people were brainwashed to no freedom of choices, they would be happier etc. and so he concluded that the principle is unacceptable.

Another argument one was relating utilitarianism to Euthanasia and stating for an example if a person was leading a miserable life full of more unhappiness than happiness but doesn't want to die but the person thinks living a miserable life is better than dead. He stated it would be better to kill this person because it will increase happiness over unhappiness in the grounds of utilitarian and he use this to counter the principle of utility, saying it makes inadequate to determine what's right and wrong and unreliable.

Debating Euthanasia Emily Jackson, John Keown, 2011-12-02 In this new addition to the Debating Law series Emily Jackson and John Keown re examine the legal and ethical aspects of the euthanasia debate Emily Jackson argues that we owe it to everyone in society to do all that we can to ensure that they experience a good death For a small minority of patients who experience intolerable and unrelievable suffering this may mean helping them to have an assisted death In a liberal society where people's moral views differ we should not force individuals to experience deaths they find intolerable This is not an argument in favour of dying On the contrary Jackson argues that legalisation could extend and enhance the lives of people whose present fear of the dying process causes them overwhelming distress John Keown argues that voluntary euthanasia and physician assisted suicide are gravely unethical and he defends their continued prohibition by law He analyses the main arguments for relaxation of the law including those which invoke the experience of jurisdictions which permit these practices and finds them wanting Relaxing the law would he concludes be both wrong in principle and dangerous in practice not least for the dying the disabled and the disadvantaged

Euthanasia, Ethics and Public Policy John Keown, 2002-04-25 Whether the law should permit voluntary euthanasia or physician assisted suicide is one of the most vital questions facing all modern societies Internationally the main obstacle to legalisation has proved to be the objection that even if they were morally acceptable in certain hard cases voluntary euthanasia and physician assisted suicide could not be effectively controlled society would slide down a slippery slope to the killing of patients who did not make a free and informed request or for whom palliative care would have offered an alternative How cogent is this objection This book provides the general reader who need have no expertise in philosophy law or medicine with a lucid introduction to this central question in the debate not least by reviewing the Dutch euthanasia experience It will interest all in any country whether currently for or against legalisation who wish to ensure that their opinions are better informed
