

PEDIGREE'S AND HARRY POTTER

Name: _____

A pedigree is a diagram of family relationships that uses symbols to represent people and lines to represent genetic relationships. These diagrams make it easier to visualize relationships within families, particularly large extended families. A sample pedigree is to the right:

In a pedigree, **squares represent males** and **circles represent females**. Horizontal lines connecting a male and female represent mating. Vertical lines extending downward from a couple represent their children. New generations are, therefore, written underneath the parental generations and the **oldest individuals are found at the top of the pedigree**.

If the purpose of a pedigree is to analyze the pattern of inheritance of a particular trait, it is customary to **shade in the symbol of all individuals that show this trait**. Other times, you will see the genotypes of the individuals written inside the circles or squares. If the genotype is unknown or partially unknown, a question mark is used in the pedigree.

Here is a sample pedigree showing 3 generations.

What are the relationships between...?

1 and 5 Mother (1) and Son (5)

1 and 2 _____

1 and 10 _____

4 and 5 _____

3 and 5 _____

5 and 8 _____

- How many grandkids do 1 & 2 have? _____
- The pedigree above shows the recessive genetic disorder of colorblindness. Which of the individuals in the family are colorblind?
- In the family pedigree the majority of individuals that are colorblind are which gender? This is a good indicator that colorblindness is what?
