

FIRST AID QUICK GUIDE

BLEEDING AND OPEN WOUNDS

1. Cover the injured area with a clean, folded cloth. *Flamely* apply pressure to the wounded area. If blood saturates the cloth, **DO NOT REMOVE**. Place another cloth on top of the first one and continue to exert firm pressure for 3-10 minutes.
2. Raise the wounded area above the level of the heart, if possible, while applying pressure.
3. Locate the pressure point closest to the wound and apply pressure so that your finger is pressing between the wound and the bone behind the artery. If the pressure point is located on the leg, use the heel of your hand rather than your finger.
4. If the bleeding does not stop in 10 minutes, call 911.
5. Use a tourniquet only as a last resort if steps 1 and 2 have failed to stop the bleeding. Keep a record of when the tourniquet was applied so you can alert medical personnel as to how long it has been in place. Be prepared to treat the victim for shock.

SHOCK

Symptoms can include the following:

- Looking pale
- Acting confused
- Skin is pale or flushed
- Breathing is irregular or weak
- Shivering
- Loss of consciousness

To treat shock, carry out the following steps:

1. Call 911.
2. Place victim on his/her back with the head level or slightly above the rest of the body. The victim should be on his/her back if no other injuries.
3. Loosen clothing so the victim can breathe more easily.
4. Keep victim warm with a blanket if skin is pale and cool.
5. If skin is hot and flushed, use cool, damp towels until skin returns to normal temperature. Place a blanket on victim to keep him warm.
6. Never give a shock victim any food or liquids.

BURNS

Chemical or Compressed Gas/Burns:

- Flush the burned area with cold water and remove the victim's affected clothing.
- Apply burn ointment to the burn (or use honey, petroleum jelly or a mixture of baking soda and water).
- Cover loosely with a bandage.
- Treat for shock.
- Call 911.

Heat/Thermal Burns:

- Submerge affected area in cool (not cold) water, or wrap loosely with a wet cloth.
- Gently pat dry and cover with a bandage.
- Do not use sprays or ointments for second and third degree burns.
- Call 911.

HEART ATTACK/STROKE

Symptoms of a **HEART ATTACK** include the following:

- Chest pain below the breastbone which radiates to the chest, arms, shoulders, neck, teeth, jaw and back.
- Victim may experience sweating, nausea, abdominal pain, vomiting, discomfort described as indigestion, shortness of breath and extreme anxiety.
- Skin and nails may be bluish in color.

Symptoms of a **STROKE** include:

- Slurring of words.
- Mental confusion.
- Loss of balance.
- Paralysis or weakness of a specific part of the body, and/or
- Loss of consciousness.

To treat **HEART ATTACK** or **STROKE** victims, you should:

1. call 911 immediately.
2. Have victim sit or lie down, rest, and keep warm and calm.
3. Assist victim in taking his/her medication (if victim has a heart condition), and
4. perform CPR if victim is unconscious and unresponsive.

EYE INJURIES

If splashed by a **chemical**, saturate the eye with running lukewarm water while spreading the lids apart until medical help arrives. Be sure that run-off, contaminated water does not enter the other eye.

If a **foreign object** is in the eye, do the following:

- Remove the object with the corner of a clean cloth or cotton swab, if the object is visible.
- If the object is not visible, pull upper lid out and over the lower lid. Tears should wash the foreign object from the eye.
- Saturate the eye with clean, cool water.
- Put gauze or a cotton pad on the eye and loosely attach with a bandage.
- See an eye specialist or go to the emergency room if the eye continues to cause discomfort.

POISONING

- If victim is unconscious or having convulsions, call 911. Perform CPR if necessary. Loosen clothing if victim is having convulsions.
- Call Poison Control or 911 and provide information about the poison, if known, and the victim's current condition.
- If the poison is a corrosive substance, a petroleum product, or unknown, do not induce vomiting.
- If the poison is known and is not a corrosive substance or petroleum product, induce vomiting. To do so, administer one ounce of special syrup (1 1/2 ounces for a child), accompanied by four or five glasses of water. Repeat procedure in 20 minutes until victim vomits. After vomiting, provide one ounce of powdered, activated charcoal in water.
- Take the poison and the victim to the hospital.

While this might not be the First Aid Quick Guide California Brochure full book, it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of First Aid Quick Guide California Brochure eBooks, including some popular titles.

FAQs About First Aid Quick Guide California Brochure Books

What is a First Aid Quick Guide California Brochure PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a First Aid Quick Guide California Brochure PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a First Aid Quick Guide California Brochure PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a First Aid Quick Guide California Brochure PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a First Aid Quick Guide California Brochure PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection,

editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
