## First Year Composition Guide:

*A Student's Guide to First-year Composition* Meg Smith, 2005      First-Year Composition Deborah Coxwell-Teague, Ronald F. Lunsford, 2014-05-01 First Year Composition From Theory to Practice s combination of theory and practice provides readers an opportunity to hear twelve of the leading theorists in composition studies answer in their own voices the key question of what it is they hope to accomplish in a first year composition course In addition these chapters and the accompanying syllabi provide rich insights into the classroom practices of these theorists      **Contribute a Verse** Tanya Long Bennett, 2015-08-11 Contribute a Verse A Guide to First Year Composition combines a composition rhetoric manual with grammar and documentation instruction and resources The textbook also includes a glossary of pertinent terms and ancillary instructor resources      **Empowering the Community College First-Year Composition Teacher** Meryl Siegal, Elizabeth Gilliland, 2021-01-11 This volume is an inquiry into community college first year pedagogy and policy at a time when change has not only been called for but also mandated by state lawmakers who financially control public education It also acknowledges new policies that are eliminating developmental and remedial writing courses while keeping mind that for most community college students first year composition serves as the last course they will take in the English department toward their associate s degree This volume also serves as a call to action to change the way community colleges attend to faculty concerns Only by listening to teachers can the concerns discussed in the volume be addressed it is the teachers who see how societal changes intersect with campus policies and students lives on a daily basis Adapted from back cover

*Intellectual Creativity in First-Year Composition Classes* Heidi Wall Burns, Michael MacBride, 2016-10-12 Today s first year composition classrooms are largely reflective of the writing pedagogy that has been used for the last 200 years Unfortunately this methodology does not meet the research or writing needs of today s college and university students Burns and MacBride were determined to make their first year composition courses more relevant to their students and sought a way to revolutionize their syllabus to do so Building on the work of Tom Romono Nancy Mack Camille Allen Sirpa Grierson Melinda Putz and others Burns and MacBride set out to determine if a multigenre research project could better teach their students research writing and critical thinking skills than a traditional research based essay The findings of their semester long study indicated that not only does a MGRP teach these skills but it far surpasses a traditional essay in teaching engagement intellectual creativity and transferable writing skills Burns and MacBride demonstrate two different ways to integrate a multigenre research project into the college composition classroom      Handbook of Research on Assessment Technologies, Methods, and Applications in Higher Education Schreiner, Christopher S., 2009-05-31 This research publication accommodates in depth studies that elucidate both the prospects and problems of learning assessment in higher education Provided by publisher      *Motivational Theory and First-year Composition* Mark Sidey, 2001      *The Radical Case for Teaching Skim Reading in First-Year Writing* Ellen C. Carillo, 2025-10-15 The Radical Case for Teaching Skim Reading in

First Year Writing encourages faculty particularly in writing studies to check internal biases toward deep reading and teach skim reading in first year writing courses Written by Ellen C Carillo who has previously published on the importance of teaching deep reading this small book is a controversial prompt for further discussion and exploration Data from studies of the lived experiences of undergraduates indicate that students do not need deep reading practices in the majority of their classes across the disciplines and moreover that students succeed in their classes by skim reading Rather than imagining an idealized set of circumstances that allow for sustained deep reading as does a great deal of the scholarship on reading in writing studies The Radical Case for Teaching Skim Reading in First Year Writing argues for teaching students reading practices that will support their success in their college writing assignments rather than those strategies the field believes should support their success In our information landscape and our fragile democracy encouraging skimming as opposed to deep reading may seem like a gamble this very tendency toward the quick rather than the critical has undoubtedly contributed to the current crisis of mass misinformation However teaching students to use skim reading as a strategic tool for purposeful engagement and efficient yet thoughtful information filtering better equips them to navigate the rapidly changing information landscape and manage the fast paced flow of content from diverse media sources

**Writing the Classroom** Stephen E. Neaderhiser, 2022-11-21 Writing the Classroom explores how faculty compose and use pedagogical documents to establish classroom expectations and teaching practices as well as to articulate the professional identities they perform both inside and outside the classroom The contributors to this unique collection employ a wide range of methodological frameworks to demonstrate how pedagogical genres even ones as seemingly straightforward as the class syllabus have lives extending well beyond the classroom as they become part of how college teachers represent their own academic identities advocate for pedagogical values and negotiate the many external forces that influence the act of teaching Writing the Classroom shines a light on genres that are often treated as two dimensional with purely functional purposes arguing instead that genres like assignment prompts course proposals teaching statements and policy documents play a fundamental role in constructing the classroom and the broader pedagogical enterprise within academia Writing the Classroom calls on experienced teachers and faculty administrators to critically consider their own engagement with pedagogical genres and offers graduate students and newer faculty insight into the genres that they may only now be learning to inhabit as they seek to establish their personal teacherly identities It showcases the rhetorical complexity of the genres written in the service of pedagogy not only for students but also for the many other audiences within academia that have a role in shaping the experience of teaching Contributors Michael Albright Lora Arduser Lesley Erin Bartlett Logan Bearden Lindsay Clark Dana Comi Zack K De Piero Matt Dowell Amy Ferdinandt Stolley Mark A Hannah Megan Knight Laura R Micciche Cindy Mooty Dustin Morris Kate Navickas Kate Nesbit Jim Nugent Lori A Ostergaard Cynthia Pengilly Jessica Rivera Mueller Christina Saidy Megan Schoen Virginia Schwarz Christopher Toth
