

Serial Number:0000146634

Exam Roll Number:5114YURE430004

Himachal Pradesh University

Gyan Path, Summer Hill, Shimla, H.P. 171005

Grade Card

Name of Examination (Class): BBA (BBA)

Candidate's Name: PARAS GUPTA Date of Birth: 29-01-1997

Father's Name: ANIL GUPTA Mother's Name: RAJNI GUPTA

Semester: I

College: H.P. University College of Business Studies Ans Lodge, Shimla

Exam Centre Name: H.P. University College of Business Studies Ans Lodge, Shimla(SH28)

Registration Number: 14-SBBA-37

Exam Year and Month: Nov 2014 Capacity: Regular

Date of Result Declaration: 05 February 2015

Candidate's Signature

Grade Details (with paper name and paper code)

No.	Paper Code	Paper Name	Category	Credits	Grade
1	BBA101(C)	Business Organisation & Management	Major	4	O
2	BBA102(C)	Financial Accounting	Major	4	O
3	BBA103(C)	Business Economics	Major	4	A++
4	BBA104(E)	Business Communication & Personality Development	Minor	4	O
5	FE1104	Functional English	Compulsory (Skill based)	3	A++
6	B-SCT001/02/0323	Introduction to Windows OS	General Interest	2	++
Total Credits				21

First Semester 2014 2015 Results

N Noddings

First Semester 2014 2015 Results:

Computational Science and Technology Rayner Alfred, Yuto Lim, Ag Asri Ag Ibrahim, Patricia Anthony, 2018-08-27 This book features the proceedings of the Fifth International Conference on Computational Science and Technology 2018 ICCST2018 held in Kota Kinabalu Malaysia on 29 30 August 2018 Of interest to practitioners and researchers it presents exciting advances in computational techniques and solutions in this area It also identifies emerging issues to help shape future research directions and enable industrial users to apply cutting edge large scale and high performance computational methods *ECEL 2016 - Proceedings of the 15th European Conference on e-Learning*, Proceedings of the 15th European Conference on e Learning ECEL 2016 **Software Engineering, Artificial Intelligence, Networking and Parallel/Distributed Computing** Roger Lee, 2017-06-23 This book gathers 14 of the most promising papers presented at the 18th IEEE ACIS International Conference on Software Engineering Artificial Intelligence Networking and Parallel Distributed Computing SNPD 2017 which was held on June 26 28 2017 in Kanazawa Japan The aim of this conference was to bring together researchers and scientists businessmen and entrepreneurs teachers engineers computer users and students to discuss the various fields of computer science and to share their experiences and exchange new ideas and information in a meaningful way The book presents research findings concerning all aspects theory applications and tools of computer and information science and discusses the practical challenges encountered along the way as well as the solutions adopted to solve them *Interactive Collaborative Learning* Michael E. Auer, David Guralnick, James Uhomoibhi, 2017-01-07 This book presents the proceedings of the 19th International Conference on Interactive Collaborative Learning held 21 23 September 2016 at Clayton Hotel in Belfast UK We are currently witnessing a significant transformation in the development of education The impact of globalisation on all areas of human life the exponential acceleration of developments in both technology and the global markets and the growing need for flexibility and agility are essential and challenging elements of this process that have to be addressed in general but especially in the context of engineering education To face these topical and very real challenges higher education is called upon to find innovative responses Since being founded in 1998 this conference has consistently been devoted to finding new approaches to learning with a focus on collaborative learning Today the ICL conferences have established themselves as a vital forum for the exchange of information on key trends and findings and of practical lessons learned while developing and testing elements of new technologies and pedagogies in learning **The 1st International Conference on Advanced Intelligent System and Informatics (AISi2015), November 28-30, 2015, Beni Suef, Egypt** Tarek Gaber, Aboul Ella Hassanien, Nashwa El-Bendary, Nilanjan Dey, 2015-11-09 The conference topics address different theoretical and practical aspects and implementing solutions for intelligent systems and informatics disciplines including bioinformatics computer science medical informatics biology social studies as well as robotics research The conference also discuss and present solutions to the cloud computing and big data mining which are considered hot

research topics The conference papers discussed different topics techniques models methods architectures as well as multi aspect domain specific and new solutions for the above disciplines The accepted papers have been grouped into five parts Part I Intelligent Systems and Informatics addressing topics including but not limited to medical application predicting student performance action classification and detection of dead stained microscopic cells optical character recognition plant identification rehabilitation of disabled people Part II Hybrid Intelligent Systems addressing topics including but not limited to EMG signals text classification geomagnetic inverse problem email filtering Part III Multimedia Computing and Social Networks addressing topics including but not limited to augmented reality telepresence robot video flash matting community detection quality images face thermal image extraction MRI tumor segmentation Part V Cloud Computing and Big Data Mining discussing topics including but not limited to mining on microblogs query optimization big data classification access control friendsourcing and assistive technology Part VI Swarm Optimization and Its Applications addressing topics including but not limited to solving set covering problem adaptive PSO for CT liver segmentation water quality assessment attribute reduction fish detection solving manufacturing cell design problem

Engineering Education 4.0 Sulamith Frerich,Tobias Meisen,Anja Richert,Marcus Petermann,Sabina Jeschke,Uwe Wilkesmann,A. Erman Tekkaya,2017-04-12 This book presents a collection of results from the interdisciplinary research project ELLI published by researchers at RWTH Aachen University the TU Dortmund and Ruhr Universit t Bochum between 2011 and 2016 All contributions showcase essential research results concepts and innovative teaching methods to improve engineering education Further they focus on a variety of areas including virtual and remote teaching and learning environments student mobility support throughout the student lifecycle and the cultivation of interdisciplinary skills

Encyclopedia of Information Science and Technology, Fourth Edition Khosrow-Pour, D.B.A., Mehdi,2017-06-20 In recent years our world has experienced a profound shift and progression in available computing and knowledge sharing innovations These emerging advancements have developed at a rapid pace disseminating into and affecting numerous aspects of contemporary society This has created a pivotal need for an innovative compendium encompassing the latest trends concepts and issues surrounding this relevant discipline area During the past 15 years the Encyclopedia of Information Science and Technology has become recognized as one of the landmark sources of the latest knowledge and discoveries in this discipline The Encyclopedia of Information Science and Technology Fourth Edition is a 10 volume set which includes 705 original and previously unpublished research articles covering a full range of perspectives applications and techniques contributed by thousands of experts and researchers from around the globe This authoritative encyclopedia is an all encompassing well established reference source that is ideally designed to disseminate the most forward thinking and diverse research findings With critical perspectives on the impact of information science management and new technologies in modern settings including but not limited to computer science education healthcare government engineering business and natural and physical sciences it is a pivotal and relevant source of knowledge that will

benefit every professional within the field of information science and technology and is an invaluable addition to every academic and corporate library

Student Engagement and Participation: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2017-06-19 The delivery of quality education to students relies heavily on the actions of an institution's administrative staff. Effective teaching strategies allow for the continued progress of modern educational initiatives. *Student Engagement and Participation: Concepts, Methodologies, Tools, and Applications* provides comprehensive research perspectives on the multi-faceted issues of student engagement and involvement within the education sector. Including innovative studies on learning environments, self-regulation, and classroom management, this multi-volume book is an ideal source for educators, professionals, school administrators, researchers, and practitioners in the field of education.

New Frontiers in High Performance Computing and Big Data G. Fox, V. Getov, L. Grandinetti, 2017-11-14 For the last four decades, parallel computing platforms have increasingly formed the basis for the development of high performance systems primarily aimed at the solution of intensive computing problems, and the application of parallel computing systems has also become a major factor in furthering scientific research. But such systems also offer the possibility of solving the problems encountered in the processing of large scale scientific data sets as well as in the analysis of Big Data in the fields of medicine, social media, marketing, economics, etc. This book presents papers from the International Research Workshop on Advanced High Performance Computing Systems held in Cetraro, Italy, in July 2016. The workshop covered a wide range of topics and new developments related to the solution of intensive and large scale computing problems, and the contributions included in this volume cover aspects of the evolution of parallel platforms and highlight some of the problems encountered with the development of ever more powerful computing systems. The importance of future large scale data science applications is also discussed. The book will be of particular interest to all those involved in the development or application of parallel computing systems.

ICEL2015-10th International Conference on e-Learning Dr. Carlton Watson, 2015-06-12 These proceedings represent the work of researchers participating in the 10th International Conference on e-Learning (ICEL 2015) which is being hosted this year by the College of the Bahamas, Nassau, on the 25-26 June 2015. ICEL is a recognised event on the International research conferences calendar and provides a valuable platform for individuals to present their research findings, display their work in progress, and discuss conceptual advances in the area of e-Learning. It provides an important opportunity for researchers and managers to come together with peers to share their experiences of using the varied and expanding range of e-Learning available to them. With an initial submission of 91 abstracts, after the double-blind peer review process, there are 41 academic research papers and 2 PhD papers. Research papers published in these Conference Proceedings. These papers come from some many different countries including Australia, Belgium, Brazil, Canada, China, Germany, Greece, Hong Kong, Malaysia, Portugal, Republic of Macedonia, Romania, Slovakia, South Africa, Sweden, United Arab Emirates, UK, and the USA. A selection of the best papers, those agreed by a panel

of reviewers and the editor will be published in a conference edition of EJEL the Electronic Journal of e Learning www.ejel.com These will be chosen for their quality of writing and relevance to the Journal's objective of publishing papers that offer new insights or practical help into the application of e Learning Advances in Data Mining. Applications and Theoretical Aspects Petra Perner, 2016-06-27 This book constitutes the refereed proceedings of the 16th Industrial Conference on Advances in Data Mining ICDM 2016 held in New York NY USA in July 2016 The 33 revised full papers presented were carefully reviewed and selected from 100 submissions The topics range from theoretical aspects of data mining to applications of data mining such as in multimedia data in marketing in medicine and in process control industry and society

The Paradigm Shift from a Linear Economy to a Smart Circular Economy Mansoor Alaali, Abdalmuttaleb M. A. Musleh Al-Sartawi, Arafat Salih Aydiner, 2025-07-28 The concept of the circular economy has attracted the attention of scholars researchers professionals and policymakers in recent years The notion is characterised as an economy that intends to keep products stocks work in progress and materials at their highest utility and value continually distinguishing between their technical and biological cycles It is devised as a continuous positive development cycle that reserves and improves natural resources optimizes outputs and minimizes supply chain related risks by overseeing limited stocks and renewable flows of the stocks Several legislations and policies are being developed to motivate and integrate SDGs and net zero related approaches in companies among which the circular economy CE is gaining momentum due to its documented impact on the elements of the SDGs and net zero Efficient management of resources and utility via artificial intelligence is vital towards a smart circular economy by minimising waste losses pollution and extraction of virgin resources It is important to note that there is a difference between smart and traditional circular economies This book focuses on the former and makes distinctions in terms of how technology systems and solutions can be effectively and efficiently implemented This book The Paradigm Shift from a Linear Economy to a Smart Circular Economy The Role of Artificial Intelligence Enabled Systems Solutions and Legislations discusses the transition from linear to smart circular economy by dissecting the role of artificial intelligence and other technologies such as big data IoT and blockchain in such transformations The book further aims to provide a platform for researchers professionals and students to closely investigate discuss and examine the theories philosophies ontologies and the role of governments policymakers and businesses in supporting the transition to a smart economy via national initiatives fiscal policies and corporate governance The book highlights the need for collaborative efforts between various actors including the private and public sectors through cross disciplinary approaches to attain maintain and sustain a smart circular economy *Design, User Experience, and Usability: Interactive Experience Design* Aaron Marcus, 2015-07-20 The three volume set LNCS 9186 9187 and 9188 constitutes the proceedings of the 4th International Conference on Design User Experience and Usability DUXU 2015 held as part of the 17th International Conference on Human Computer Interaction HCII 2015 in Los Angeles CA USA in August 2015 jointly with 13 other

thematically similar conferences The total of 1462 papers and 246 posters presented at the HCII 2015 conferences were carefully reviewed and selected from 4843 submissions These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems The papers accepted for presentation thoroughly cover the entire field of Human Computer Interaction addressing major advances in knowledge and effective use of computers in a variety of application areas The total of 132 contributions included in the DUXU proceedings were carefully reviewed and selected for inclusion in this three volume set The 64 papers included in this volume are organized in topical sections on designing the social media experience designing the learning experience designing the playing experience designing the urban experience designing the driving experience designing the healthcare patient s experience and designing for the healthcare professional s experience

Complex Problem Solving Beyond the Psychometric

Approach Wolfgang Schoppek, Joachim Funke, Magda Osman, Annette Kluge, 2018-09-28 Complex problem solving CPS and related topics such as dynamic decision making DDM and complex dynamic control CDC represent multifaceted psychological phenomena In abroad sense CPS encompasses learning decision making and acting in complex and dynamic situations Moreover solutions to problems that people face in such situations are often generated in teams or groups This adds another layer of complexity to the situation itself because of the emerging issues that arise from the social dynamics of group interactions This framing of CPS means that it is not a single construct that can be measured by using a particular type of CPS task e g minimal complex system tests which is a view taken by the psychometric community The proposed approach taken here is that because CPS is multifaceted multiple approaches need to be taken to fully capture and understand what it is and how the different cognitive processes associated with it complement each other Thus this Research Topic is aimed at showcasing the latest work in the fields of CPS as well as DDM and CDC that takes a holist approach to investigating and theorizing about these abilities The collection of articles encompasses conceptual approaches as well as experimental and correlational studies involving established or new tools to examine CPS DDM and CDC This work contributes to answering questions about what strategies and what general knowledge can be transferred from one type of complex and dynamic situation to another what learning conditions result in transferable knowledge and skills and how these features can be trained

First Semester 2014 2015 Results Introduction

In today's digital age, the availability of First Semester 2014 2015 Results books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of First Semester 2014 2015 Results books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of First Semester 2014 2015 Results books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing First Semester 2014 2015 Results versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, First Semester 2014 2015 Results books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing First Semester 2014 2015 Results books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for First Semester 2014 2015 Results books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary

titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, First Semester 2014 2015 Results books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of First Semester 2014 2015 Results books and manuals for download and embark on your journey of knowledge?

FAQs About First Semester 2014 2015 Results Books

What is a First Semester 2014 2015 Results PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a First Semester 2014 2015 Results PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a First Semester 2014 2015 Results PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a First Semester 2014 2015 Results PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a First Semester 2014 2015 Results PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such

as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
