In *The 5 Love Languages of Children*, the author examines the different languages your children speak. Sometimes they waver for your attention and other times they ignore you completely. Sometimes they are filled with gratitude and affection and other times they seem totally indifferent. Attitude, behavior, development: everything depends on the love relationship between you and your child. When children feel loved, they do their best. But how can you make sure your child feels loved? Since 1992, Dr Gary Chapman's best-selling book *The Five Love Languages* has helped more than 300,000 couples develop stronger, more fulfilling relationships by teaching them to speak each other's love language. Each child too expresses and receives love through one of five different communication styles. And your love language may be totally different from that of your child. While you are doing all you can to show your child love, he may be hearing it as something completely opposite. Discover your child's primary language and learn what you can do to effectively convey unconditional feelings of respect, affection, and commitment that will resonate in your child's emotions and behavior.
