Zimring,2017-03-15 Tracing the benefits and limitations of repurposing aluminum Besides being the right thing to do for Mother Earth recycling can also make money particularly when it comes to upcycling a zero waste practice where discarded materials are fashioned into goods of greater economic or cultural value In Upcycling Aluminum Carl A Zimring explores how the metal s abundance after World War II coupled with the significant

economic and environmental costs of smelting it from bauxite ore led to the industrial production of valuable durable goods from salvaged aluminum Beginning in 1886 with the discovery of how to mass produce aluminum the book examines the essential part the metal played in early aviation and the world wars as well as the troubling expansion of aluminum as a material of mass disposal Recognizing that scrap aluminum was as good as virgin material and much more affordable than newly engineered metal designers in the postwar era used aluminum to manufacture highly prized artifacts Zimring takes us on a tour of post 1940s design examining the use of aluminum in cars trucks airplanes furniture and musical instruments from 1945 to 2015 By viewing upcycling through the lens of one material Zimring deepens our understanding of the history of recycling in industrial society He also provides a historical perspective on contemporary sustainable design practices Along the way he challenges common assumptions about upcycling s merits and adds a new dimension to recycling as a form of environmental absolution for the waste related sins of the modern world Raising fascinating questions of consumption environment and desire Upcycling Aluminum is for anyone interested in industrial and environmental history discard studies engineering product design music history or antiques

Media Blasting & Metal Preparation Matt Joseph, 2016-10-14 A key component often overlooked in automotive restoration is metal preparation In essence all the best bodywork primer and fancy paint won t do you any good if the metal surface it adheres to is not expertly prepared How many times at a classic car show have you seen imperfections in the paint bubbles coming from underneath and body filler separating from the metal In almost every instance this is the result of poor metal preparation during the initial stages of the restoration process In Media Blasting intended purpose of cleaning the metal approaches to cleaning metal through chemical mechanical abrasive and media abrasive systems mastering the processes for consistent results small and large scale projects and post cleaning prep procedures In short anyone who takes shortcuts in the metal preparation area of restoration is virtually guaranteed disappointment down the road With this handy new guide Joseph provides all you need to know for a successful and long lasting restoration
