The Korean Automotive Industry, Volume 2 A.J. Jacobs, 2023-08-24 This volume chronicles the maturation of the South Korean auto industry and its native automakers from the 1997 Asian Crisis to 2019 After examining the context for domestic vehicle production in South Korea the author presents multiple case studies for all five Korean automakers General Motors Korea Daewoo Motors Kia Hyundai Ssangyong and Renault Samsung This includes coverage of Hyundai Kia s foreign plants in North America Europe India China and Emerging Asia The book closes by assessing the five to ten year future outlooks for Korean automakers at home and abroad This important work will prove informative to scholars of business management automotive history international development Asian studies and public administration **Aiming Big with Small Cars** Rajnish Tiwari, Cornelius Herstatt, 2013-10-28 This book focuses on the small car segment of India s automotive industry to explain the emergence of lead markets The authors contend that the current understanding of lead markets does not sufficiently explain the business practices that are born out of the intensified globalization of innovation Lead markets are considered crucial for the global diffusion of new products and this book investigates whether sustainable lead markets can also emerge in developing economies and if so under which conditions The authors question the conventional wisdom and propose updates and extensions to the lead market theory to better reflect the changing ground realities on ground Don't Tell the Boss! Dmitry Chernov, Didier Sornette, Giovanni Sansavini, Ali Ayoub, 2023-01-20 After a major disaster when investigators are piecing together the story of what happened a striking fact often emerges before disaster struck some people in the organization involved were aware of dangerous conditions that had the potential to escalate to a critical level But for a variety of reasons this crucial information did not reach decision makers So the organization moved ever closer to catastrophe effectively unaware of the possible threat despite the fact that some of its employees could see it coming What is the problem with communication about risk in an organization and why does this problem exist What stops people in organizations or project teams from freely reporting and discussing critical risks This book seeks to answer these questions starting from a deep analysis of 20 disasters where the concealment of risks played a major part These case studies are drawn from around the world and span a range of industries civil nuclear power coal oil and gas production hydropower energy metals and mining space exploration transport finance retail manufacturing and even the response of governments to wars famines and epidemics Together case studies give an insight into why people hesitate to report risks and even when they do why their superiors often prefer to ignore the news The book reviews existing research on the challenges of voice and silence in organizations This helps to explain more generally why people dread passing on bad news to others and why in the workplace they prefer to keep quiet about unpleasant facts or potential risks when they are talking to superiors and colleagues The discussion section of the book includes important examples of concealment within the Chinese state hierarchy as well as by leading epidemiologists and governments in the West during the novel coronavirus outbreak in Wuhan in 2019

2020 The full picture of the very early stage of the COVID 19 pandemic remains unclear and further research is obviously needed to better understand what motivated some municipal provincial and national officials in China as well as Western counterparts to obfuscate facts in their internal communications about many issues associated with the outbreak **Kiss and Tell** Nistula Hebbar, 2012-01-01 A kiss can reveal a lot Janaki is like any journalist working the political circuit she wants a big story She is also like any girl in her late twenties she wants a love life and maybe even a happy ever after When work leads her to Vishnu Singh older powerful but very attractive bureaucrat she might just have found everything she wants in one sexy package But before Janaki can have her fairy tale ending her boss sends her off to uncover a seedy scandal involving a high profile politician and she finds herself investigating the man Vishnu works for Caught in the whirlwind of her investigation and the thrill of Vishnu's kisses events in Janaki's life soon start to spin out of her control **Arsip Koran Banjarmasin Post Tgl 10 April 2012** , **Arsip Koran Banjarmasin Post Tgl 09 April 2012** , **Automotive Management** Bernhard Ebel, Markus B.
