Localizing Learning Peter K. Bol, 2023-11-20 As the first intellectual history of Song Yuan and Ming China written from a local perspective Localizing Learning shows how literati learning in Wuzhou came to encompass examination studies Neo Confucian moral philosophy historical and Classical scholarship encyclopedic learnedness and literary writing and traces how debates over the relative value of moral cultivation cultural accomplishment and political service unfolded locally The book is set in one locality Wuzhou later Jinhua a prefecture in China's Zhejiang province from the twelfth through the sixteenth century Its main actors are literati of the Song Yuan and Ming who created a local tradition of learning as a means of cementing their common identity and their claim to moral political and cultural leadership Close readings of philosophical and literary texts with quantitative analysis of social and kinship networks consider why and how the local literati enterprise was built By treating learning as the subject it broadens our perspective going beyond a history of ideas to investigate the social practices and networks of kinship and collegiality with which literati defined themselves in local regional and national contexts

A User's Guide to the Brain John J. Ratey, M.D., 2002-01-08 John Ratey bestselling author and clinical professor of psychiatry at Harvard Medical School lucidly explains the human brain's workings and paves the way for a better understanding of how the brain affects who we are Ratey provides insight into the basic structure and chemistry of the brain and demonstrates how its systems shape our perceptions emotions and behavior By giving us a greater understanding of how the brain responds to the guidance of its user he provides us with knowledge that can enable us to improve our lives In A User's Guide to the Brain Ratey clearly and succinctly surveys what scientists now know about the brain and how we use it He looks at the brain as a malleable organ capable of improvement and change like any muscle and examines the way specific motor functions might be applied to overcome neural disorders ranging from everyday shyness to autism Drawing on examples from his practice and from everyday life Ratey illustrates that the most important lesson we can learn about our brains is how to use them to their maximum potential
